PRICE TWO CENTS

DEWEY IN HASTE.

DISPATCH FROM ADMIRAL DEWEY AT PORT SAID.

IN VOLUNTARY QUARANTINE

WILL PROCEED AT ONCE TO TRIESTE.

WANTS CLEAN HEALTH BILL

WILL THEN HURRY THROUGH THE MEDITERRANEAN.

Washington, July 14.—Secretary Long has received the following cable message from Admiral Dewey:

"Port Said, July 14.—Secretary of the Navy, Washington: Olympia in voluntary quarantine. As soon as cooled, proceed to Trieste for practice and recuperation, officers and men."

Inasmuch as he is silent on the subject, it is assumed that no change has occurred in the health of Admiral Dewey and his men since their departure from Hong Kong when all were reported well.

It is said at the navy department that the admiral's reference to "practice" means simply that he is going to Trieste to get a clean bill of health that will enable him to continue his voyage through the Mediterranean without delays from the health authorities at the various points.

ESCAPED A MASSACRE.

San Francisco, Cal., July 14.—The officers of the Second Oregon regiment while very guarded in their statements, admit that the condition of the American troops at Manila at the outbreak of hostilities between the United States was very critical.

The capture of a letter sent from inside our lines in Manila to an emissary of Aguinaldo is probably all that saved our army from a terrible disaster and possible annihilation.

The letter was taken to General Otis, who found it to be the plans of a plot to open the gates at Manila, sack the city, murder the guards and allow the insurgent army to pour into the American camps and surprise the men.

The United States troops were under arms all night to meet the expected attempt, but the enemy had learned of the capture of the letter and the only part of the plot that was carried out was the burning of a portion of the city of Manila.

HEWITT WANTS DAMAGES.

In the superior court Melvin Hewitt, through his next best friend, George Hewitt, has commenced suit for \$105 damages against Barnett Novitsky. He alleges that one day in June while he was riding his bicycle on Clay street, Novitsky carelessly drove into him with a horse, knocking plaintiff to the ground, rendering him unconscious and breaking his wheel. It is claimed that plaintiff was confined to his home for three weeks and incurred as a result of the accident a doctor bill of \$25, for all of which he asks damages in the sum of \$105.

WILL DECLARE A DIVIDEND.

Tomorrow Referee Chapin will declare a dividend of the assets of the J. E. Schell Loan and Investment company in favor of the creditors whose claims are proved, and it is believed they will receive about ten per cent. on the amount of the claims. Payment will doubtless be made next week. This is the first dividend and another may follow later.

TEACHERS ARE COMING.

Next week the teachers of this district of the Ohio Lutheran synod will hold a conference at St. John's Lutheran church in this city. The session opens Wednesday and continues until Friday, and the teachers will discuss methods of work. About forty are expected to be present and preparations are being made to make their stay in Fort Wayne both pleasant and profitable. A feature of the session will be a concert on Thursday evening given by the young people's societies of St. John's Lutheran church.

WIL OPEN TOMORROW.

Tomorrow morning Sergeant James A. Stewart will open a recruiting office in the Foster block, 17 Court street, for the enlistment of men for all branches of the United States military services. Dr. C. E. Barnett will be the examining surgeon. Recruits are desired for both the regular and volunteer service, though vol-

unteers are preferred. The term of enlistment for the regular service will be three years, while the volunteers enlist for two years unless sooner discharged.

TO HAVE MORE SAIL.

Southampton, July 14.—It transpires that a new boom, even larger than the present one, is being constructed for the cup challenger Shamrock in the belief that a lighter air in America will enable her to carry a considerable greater expanse of canvas than during her trial race with the Britannia.

DEATHS FOR THE QUARTER.

Secretary Proegler, of the county board of health, has prepared his statement of deaths for the quarter ending June 30. There was a total of 194 deaths in the county, most of them within the Fort Wayne city limits. More deaths were caused by consumption than any other one disease.

FLAG INCIDENT IN HAWAII.

THE GERMAN EMBLEM HAULED DOWN BY SOLDIERS.

Was the Result of a Personal Quarrel, But May Become an International Episode.

Honolulu, July 7.—Via Victoria, B. C., July 14.—There was a "flag incident" here on the fourth of July which promises to be made an international episode. Carl Klemme, the proprietor of the Orpheum hotel, gaily decorated his building in American colors, hoisted the American flag over it and under the American flag flew the German. Later a friend of his wanted to use an American flag and Klemme good-naturedly loaned him his, leaving the German flag floating alone from the flagstaff.

J. H. West saw it and ordered Klemme to haul it down. There has been ill-will between the two men before and Klemme refused to take orders from his enemy. West thereupon gathered a lot of soldiers from the transport Sheridan and showed them the German flag floating on the Fourth of July in American territory. The soldiers at once proceeded to the roof, tore down the German flag and destroyed it and put into its place some red, white and blue bunting torn from the other decorations of the buildings. West was today fined \$100 in the police court for malicious mischief and the German consul general will make a report of the matter to his government.

THREE-CENT FARE IN DETROIT.

Detroit, Mich., July 14.—"Three-cent fares" are announced today on the fronts of Detroit street cars in the places where amusement advertising signs are usually carried. This sudden voluntary reduction is the result of a decision of Governor Pinchney and Tom L. Johnson to give the people an object lesson upon what they may look forward to, if present plans for the sale of all the Detroit street railways to the "Detroit Municipal Railway company" in behalf of the city win out.

CAPTAIN REESE RETURNS.

Capt. Charles E. Reese returned from Chicago today and will remain a few days to arrange his business affairs before returning to take his command as a captain in the Thirtieth regiment of United States volunteers.

REFUSED A NEW TRIAL.

Judge Hensch this morning overruled a motion for a new trial in the Geisdoerfer divorce case and entered a decree awarding the divorce to the husband. The case will be appealed to the supreme court.

St. Louis Globe Democrat: "Criger is no longer the gentle little chap he was when he entered the league in 1896. In the early games at League park this season he had little or nothing to say. When the first losing streak was on Lou developed into a kicker of the first stripe, and was an able companion for Tebeau, O'Connor and Burkett in fighting for the club's rights. Wednesday Emslie took him out of the game for getting too violent. Criger is a great backstop and hard stickler. He makes a mistake in fighting the umpire, as Tebeau, Burkett and O'Connor are fully able to do all the playing in that line."

Nick Altrock has signed with the Oswego team in the New York league and will assist Billy Wayne in the twirling department.

BANK IS CLOSED.

CASHIER HAS WANDERED FROM HIS OWN FIRESIDE.

HE TOOK \$100,000 WITH HIM.

BANK OF PERTH AMBOY, N. J., OUT OF CASH.

DEFAULTER CAN'T BE FOUND.

LEAVES A WIFE AND THREE CHILDREN.

New York, July 14.—The Middlesex County bank, of Perth Amboy, N. J., has closed its doors. Cashier Edward M. Valentine is reported to be missing, with \$100,000 of the bank's money.

The president of the bank, U. B. Watson, informed the police of Perth Amboy last night of the condition of affairs and reported that Valentine had not been seen since Monday last. The details of how the money was converted or misappropriated are not known. Expert accountants are at work on Cashier Valentine's books and until they finish their work the amount of the shortage cannot be accurately stated. Cashier Valentine has been in the employ of the Perth Amboy bank for several years. He was considered a man of steady habits and lived with his family in Perth Amboy. His family consists of his wife and two or three children. He is under 40 years of age. Mrs. Valentine and the children are understood to be at Ocean Grove.

The Perth Amboy bank was established about twenty-five years ago and was considered one of the oldest and solidest banking institutions in New Jersey. The failure of the bank to open its doors for business today drew a large crowd to the vicinity and the police were employed to preserve order.

The chief of police of Perth Amboy is authority for the statement that Cashier Valentine's defalcations amount to \$100,000.

MORE GOLD FROM ALASKA.

Port Townsend, Wash., July 14.—The steamship Orizaba arrived from the north this morning, bringing fifty returning Klondikers, most of whom have gold dust ranging from \$1,500 up to several thousand. The ship's strong box contains 100 pounds of the yellow metal from the interior. This party arrived up river from Dawson on the steamer Terrill. Some passengers direct from Atlin report that claims in that district are being worked. They say that Judge Irving, who was sent to Atlin to straighten out mining properties, is giving great satisfaction, and in awarding all claims to original locators they are permitted to commence work. He makes no distinction between Americans and Canadians and holds that Americans who have taken out miners' licenses in accordance with the laws in British Columbia and, prior to the passage of the alien exclusion law, located claims, are entitled to the same privileges as Canadians.

GENERAL LORD DEAD.

New York, July 14.—Brigadier General Russell Farham Lord, whose sister is the wife of ex-President Benjamin Harrison, is dead at his home in this city, aged 61 years. He was commissioned brigadier general of Pennsylvania volunteers during the civil war and served as an organizer of regiments. Then he went west and engaged in mining engineering. In 1886 he became chief engineer of the government of Salvador. Afterward he had charge of the development of valuable mines in Ecuador.

W. C. WHITNEY'S LOSS.

New York, July 14.—The fire on the William C. Whitney estate at Westbury, L. I., last night, did not destroy the house, as was first reported, but burned one of the largest barns. The total loss is estimated at from \$80,000 to \$70,000, much of this sum being represented by some twenty fine horses, including several of Mr. Whitney's racers, which were burned.

WANT SHAFER RETAINED.

San Francisco, July 14.—Major General Shaffer will have reached the age limit in about three months and it is said his friends are working quietly, but none the less energetically, to secure his retention in the service a few years longer. The friends of General Shaffer argue that since the department of the Pacific has become so important by reason

of the acquisition of the Philippines, it is inadvisable to make a change in its commander just at this time. It is rumored that Brigadier General Merriam, at present in command of the department of the Columbia, is likely to succeed Shaffer in the event of his retirement.

A NEW SCHOOL HOUSE.

Trustee Schmetzer has awarded contracts for enlarging and remodeling the school house at District No. 3, near the county asylum. Under the new order of things it will be a township graded school of two rooms, very conveniently arranged, and the improvements will cost about \$2,500. Contractor Grotholman will do the carpenter work, Contractor Pohlmann the masonry, John H. Welch the slate roofing and Israel & Heine the painting.

NEWS IN THE POLICE COURT.

THEODORE KNOX ARRESTED FOR LARCENY.

The Officers Are Hunting for Orville A. Thorne, Who Was an Accomplice.

Justice France presided at police court this morning and was confronted by three prisoners. Theodore Knox, a boy who resides at 14 Lafayette street, was arrested on a charge of larceny, it being alleged he was an accomplice of one O. A. Thorne, who is accused of stealing a bicycle and some wearing apparel of Miss Bertia Craig. Thorne secured a wheel of A. C. Katt and did not return it, but went away on a visit. The police hunted for the wheel and found it up stairs at 14 Lafayette street, crated and ready for shipment.

Thorne was employed by D. N. Foster to care for his horse and he had his trunk in the Foster barn. Employed at the Foster home was Miss Bertia Craig, who requested Thorne to move some of her clothing. He did so, and a mackintosh and a fine dress turned up missing. The mackintosh was recovered and Thorne's trunk was found at the home of a relative who resides in Lakeside. It is believed that he presented the dress to a girl friend, Georgiana King, who is away on a visit.

Thorne was given a tip that the officers were after him and skipped out, but his friend, Theodore Knox, was arrested and at first denied any knowledge of the stolen property, but finally admitted that Thorne gave the mackintosh to him. His case was continued until tomorrow in the hope that Thorne may be located in the meantime.

William Coughlin, alias "Johnny Appleseed," was arrested for drunkenness. He was in a belligerent mood last evening and smashed Officer Rony in the face. Squire France sent him to jail for nineteen days.

John Lau, a drunk arrested by Officer Blum, was sent to jail for twelve days.

MAY BE CALLED TO KOKOMO.

REV. SHERMAN POWELL UNDER CONSIDERATION.

Committee From Grace Church Hears the Fort Wayne Pastor—A Favorite Report.

Rev. Sherman Powell, of Trinity M. E. church, may be called to the pastorate of Grace Reformed church at Kokomo, to succeed the late Rev. E. T. Gregg. No decision has yet been reached in the matter, but Judge Elliott, of Kokomo, acting as a committee from the Grace church, came to Fort Wayne last Sunday to hear Rev. Powell, and it is understood that he made a very favorable report to his church concerning the ability of the Fort Wayne pastor. Rev. M. S. Marble, presiding elder of the Kokomo district, was also in the city a day or two ago conferring with Presiding Elder Simpson in the matter.

When asked about the proposed change this morning, Rev. Simpson said: "It is true that Rev. Powell is under consideration for Grace church, as are also several other pastors, though no decision has yet been made. I regard Rev. Powell as among the leading young pastors, and Grace church is one of the most important appointments in the conference. The choice of a pastor will no doubt be made very soon."

Mike Trost has been released by Youngstown and Latimer is catching.

SALE IS ORDERED.

DECREE ENTERED IN THE STREET RAILWAY CASE.

NO DATE FIXED FOR THE SALE

H. C. ROCKHILL IS APPOINTED CO-RECEIVER

AND WILL SELL PROPERTY

FOURTEEN THOUSAND DOLLARS ALLOWED ATTORNEYS.

Judge O'Rourke at 12 o'clock today entered his decree for the sale of the Consolidated Street Railway at public auction, but did not fix upon the exact date, which will be some day early in September.

The attorneys for Thorne and others and the Guaranty and Guardian Trust companies submitted to the court an agreement withdrawing all motions and objections to findings and modifications and requested Judge O'Rourke to make his decree of sale.

The judge finds that there is due the Guaranty Trust company, of New York, and S. B. Bond, trustees on 600 bonds of the Fort Wayne Electric company, \$731,829.64, which is a first lien on all the property of the railway company, subject to claims, and receivers' certificates. The Guaranty Trust company is allowed \$1,200 as trustee, and S. B. Bond is allowed \$300. Davies, Stone & Auerbach; Squibb, Sanders & Dempsey and Barrett & Morris are allowed attorneys fees in the sum of \$6,000. These allowances are made on the suit for foreclosure of mortgage on the original \$600,000 bonds.

Judge O'Rourke finds also that there is due the Guardian Trust company, of Cleveland, Ohio, and S. B. Bond, trustees, from the Fort Wayne Consolidated Street Railway company, upon the 1,500 bonds and mortgages, \$2,085,321.75, subject to purchase mortgage liens and certificates adjudged prior thereto. The Guardian Trust company and Mr. Bond are allowed \$300 each as trustees. Squibb, Sanders & Dempsey and Barrett & Morris are allowed \$8,000 attorneys' fees.

On the intervening petitions and cross complaints of Nicholas Thorne and others, and answers of defendants thereto, the court, by consent of the attorneys, find for the defendants.

John H. Bass, receiver, submits a statement of obligations owing by the receiver, which aggregate in excess of \$50,000. This is first to be paid and then allowances are made of obligations aggregating almost \$50,000, which must be paid after the first mortgage bonds are cancelled.

The following mechanics' liens must then be paid: E. Gilmarlin, \$1,751.20; F. M. Smith & Co., \$580.67; R. C. Lyman, \$1,266.67; Degnon Construction company, \$97.317.16. There are two claims due on Robison park, one for \$10,873, bearing 6 per cent. interest from December 10, 1895, and another of \$1,781.28, bearing 6 per cent. interest from January 8, 1896. Another preferred claim for \$29,427.34 is held by the First National bank of this city.

In the judgment on the foreclosure of the 600 mortgage bonds Judge O'Rourke includes the attorneys' fees, making the total \$732,329.64.

The court finds that neither Frank DeHass Robison nor Sarah C. Robison, his wife, has interest in the property, which is described minutely, and orders them to convey to the receiver, John H. Bass, deeds conveying and relinquishing all their rights, titles and interest in any and all said premises within twenty days. Upon Robison's failure to convey such deeds, then B. F. Harper is appointed commissioner and authorized to execute a good and sufficient deed of deeds and conveyance to John H. Bass, receiver, conveying and releasing all the rights, title and interest of said F. DeHass Robison and wife.

Then follows a decree of foreclosure, which is rather voluminous, containing a complete description of all lands and personal property owned by the street railway company.

The property is to be appraised in its entirety by William E. Mossman, Daniel L. Harding and George E. Potter. Appraisement is to be a fair cash value and the appraisers must make their report within twenty days in writing. Each appraiser is allowed the sum of \$75 for his work.

The decree then orders that the property shall be sold in its entirety for cash, at public auction, to the highest bidder, at the north door of the building at present used as a

court house, on a day and hour to be named by the co-receiver appointed in the advertisement to sell the property. The notice of sale must be published for six weeks in two papers published in Fort Wayne, one a weekly and the other a daily. The co-receiver may adjourn or postpone the sale with the consent of the court, but is authorized to proceed with the sale in accordance with the decree of sale. The co-receiver shall receive no bid until the bidder deposits a check for \$25,000.

H. C. Rockhill is appointed co-receiver and his bond is fixed at \$100,000. He will have charge of the sale of the property and as a fee therefor has been allowed \$2,000.

DIAMOND THIEF ARRESTED.

Chicago, July 14.—Abe Gelua, for whom the New York police have been searching since February 22, was arrested here today. Gelua is charged with stealing diamonds valued at \$8,000 from Michael Price, 146 Park Row, New York.

MADE HER DO A MAN'S WORK.

LOBA A. STEGER WANTS A LEGAL SEPARATION.

Alleges That Her Husband Made Her Earn Her Own Clothing—Worked in the Fields.

In the circuit court this morning, through her attorneys, Hon. W. G. Colerick and L. W. Meeks, Lora A. Steger commenced divorce proceedings against her husband, John Steger. The complaint alleges that they were married April 25, 1894, and lived together as man and wife until July 11, 1899, when she was compelled to leave him on account of cruelty. Since then she and her three children have lived with her father.

Mrs. Steger asserts that her husband cruelly treated her, choked her and often expressed the wish that she would die. He failed to provide her with clothing and she was compelled to sell butter, eggs and poultry and buy her clothes with the proceeds. She was compelled to do the work of a man on the farm, such as planting, hoeing and digging potatoes, sawing and splitting wood, husking corn, feeding cattle, horses and other live stock, carry corn from the fields, etc. She alleges that defendant used profane, vulgar and obscene language in the presence of their three children, Ida, aged four; Charles, aged three, and George, aged one. She prays for a divorce, the custody of the children and alimony in whatever sum the court deems proper. It is alleged that plaintiff believes that defendant will dispose of his property before the suit comes to trial and prays for an order restraining him from selling any of his property.

DEATHS AND FUNERALS.

HOLVERSTOTT.

Miss Mabel J. Holverstott, fourteen years of age, died at 9 o'clock this morning at her home, 519 South Broadway. She was the daughter of Charles Holverstott, one of the oldest employees of the electric works. For several months she has been in poor health and death was due to a complication of diseases. Funeral services will be held Sunday afternoon at 2 o'clock from the home and at 2.30 from the West Jefferson street Church of Christ.

WELLMAN.

At 11 o'clock this morning at her home, 112 Jackson street, Mrs. Sophia Wellman, widow of Frederick Wellman, passed peacefully to the Great Beyond after suffering a long time with that dread disease, consumption. She was fifty-four years of age and leaves four children to mourn her loss, Mrs. John Meyers, of Columbus, Ohio; Theodore Wellman, of Columbus, Ohio; Frederick Wellman, an employee of the Fort Wayne Electric company, and Edward Wellman, who is employed at Coombs' wholesale establishment. Deceased was a sister-in-law of Henry Wellman, the undertaker. The time of the funeral has not been decided.

ELOPH.

The infant daughter of Mr. and Mrs. N. J. Eloph, of 90 Force street, died Thursday evening from exhaustion, at the age of one day. The interment occurred at Dunfee.

"Chic" Stahl made three hits yesterday in four times at bat, while Tenney, his closest competitor on the Boston team, failed to connect for any kind of a hit.

A PAIR OF TALES.

WAR CLOUDS LIFT FROM THE TRANSVAAL.

TENOR OF REPORT IN LONDON

SAYS BRITAIN SENDS GOOD WILL TO KRUGER.

CHAMBERLAIN DENIES STORY

HE DECLARES THERE IS NO TRUTH IN IT.

London, July 14.—The Digger News, the Boer organ in London, has received the following dispatch from Johannesburg, dated July 14:

"A cable dispatch from the British government has been received by the Transvaal government conveying a cordial message of welcome approval of the volksraad's franchise proposals."

"The message also suggests minor alterations and tenders friendly advice."

"The Transvaal, in replying, gratefully accepts suggestions, and consideration of the reform bill, now before the raad, has been deferred in accordance with the British cabinet's advice."

"As a result of this development the peace party has come out triumphant and Lord Salisbury is acclaimed as the vindicator of the moderates."

NO TRUTH IN THE STORY.

London, July 14.—The secretary of state for the colonies, Joseph Chamberlain, when questioned regarding the Johannesburg dispatch to the Digger News today, said to a representative of the Associated Press: "There is not a word of truth in it from beginning to end."

JILTIED MAN TRIES MURDER.

Muncie, Ind., July 14.—Edward Salmon, aged twenty-five, yesterday confessed to having attempted to poison his sweetheart, Miss Loma F. Franks, aged seventeen, Wednesday night. The couple went to the pump for a drink at the girl's home and Salmon placed a spoonful of paris green in the water. She drank but a sip of it and threw it out. The contents of the cup were investigated, resulting in Salmon's arrest and his confession. Salmon recently returned from army service in Cuba, and had asked to be permitted to reenlist for the Philippine war. The girl learned to love another while Salmon was in the army.

MARCHAND ACCLAIMED.

Paris, July 14.—Splendid weather today favored the national fete day in commemoration of the fall of the bastille. The public and many private buildings were decorated with flags. Enormous crowds wended their way towards Longchamps from early morning to witness the military review. Stringent precautions were taken for the preservation of order. President Loubet, accompanied by General the Marquis de Galliffet, left the Elysee palace at 2.30 p. m. and was greeted all along the route with cries of "Vive Loubet" and "Vive la Republique." At Longchamps the cries were redoubled. A mighty demonstration ensued when Major Marchand, the hero of Fashoda, appeared mounted on a coal black charger, surrounded by the Sudanese soldiers who accompanied him on his expedition.

THE BASE BALL CASES.

The Fort Wayne ball players arrived home at 3 o'clock this morning and the warrants for their arrest were not served by Constable Ford until late this afternoon. Justice France fixed the bonds of the thirteen men at \$500 and the bonds were signed by well known citizens. The cases were set for Monday morning at 9 o'clock, but will probably not be tried on that day.

JUDGE BAKER AT WARSAW.

If reports from Warsaw are true the trip of Mayor Scherer and City Attorney Shambaugh to Indianapolis will be fruitless. It is understood that Judge Baker is at Warsaw for a short vacation and expected to hear the Fort Wayne city authorities' side of the slot machine injunction suit at Warsaw.

MARRIAGE LICENSE.

Albert E. Schuck and Margaret Ruppel.

Oh, the Pain of Rheumatism!

Rheumatism often causes the most intense suffering. Many have for years vainly sought relief from this disabling disease, and are to-day worse off than ever. Rheumatism is a blood disease, and Swift's Specific is the only cure, because it is the only remedy which can reach such deep-seated diseases.

A few years ago I was taken with inflammatory Rheumatism, which became so intense that I was for weeks unable to walk. I tried several prominent physicians and looked their treatment faithfully, but was unable to get the slightest relief. In fact, my condition seemed to grow worse, the disease spread over my entire body, and from November to March I suffered each day with my Rheumatism. I tried many patent medicines, but none relieved me. Upon the advice of a friend I decided to try Swift's Specific. I bought a bottle, and after taking it for a few days, I felt so much better that I continued the remedy, and in two months I was cured completely. The cure was permanent, for I have never since had a touch of Rheumatism though many times exposed to damp and cold weather.

Don't suffer longer with Rheumatism. Throw aside your oils and liniments, as they can not reach your trouble. Don't experiment with doctors'—their potash and mercury will add to your disability and completely destroy your digestion.

S.S.S. The Blood will cure perfectly and permanently. It is guaranteed purely vegetable, and contains no potash, mercury, or other mineral. Books mailed free by Swift Specific Co., Atlanta, Ga.

Bad Breath—I have been using **CASCARETS** and as a mild and effective laxative it has done me much good. My digestion is better, my bowels are regular, and my breath is sweet. After taking a few doses of Cascarets, we have improved wonderfully. They are a great help in the family. Write to J. C. Williams, 117 E. Hubbard St., Cincinnati, Ohio.

The "fans" at Mansfield yesterday saw the prettiest game of ball ever played in John Sherman's ballfield. The Hoosiers and Haymakers were at their best in the field and the twirlers, Sample and Miller, were both on edge. The net result was that it was possible to score a run in only one way and that was to hit the ball out of the lot. Law did this act in the fifth inning and walked around the bases with what proved to be the only run scored in the entire nine innings.

The infield work of both teams was high-class, the exhibition given by the Fort Wayne team being simply magnificent, two fast double plays amazing the Buckeyes who were lucky enough to see the contest. Roscoe Miller, as usual, had the Fort Waynes at his mercy and they were shut out easily. Score:

NOTES OF THE GAME.
Connie Mack, of Milwaukee, is a man with iron nerve. He offered Charlie Strobel \$200 for Erv Beck and was given the loud guffaw.

Jim McGuire, the veteran catcher who has played nine years with Washington, was traded yesterday to Brooklyn for McGann and Catcher Smith.

Comiskey has signed infielder Spencer, of the Texas league. If he isn't any better than he was last season while playing with Fort Wayne he will not last long in the Western league.

Torreyson seems to have had first claim on Bailey, the young South Bend twirler signed by Boston. The Boston management has made an offer to Torreyson to release his claim and he will undoubtedly agree as all he wants is the dollars.

Toledo Commercial: "Fort Wayne will be at the finish of the season and it is predicted that the Hoosiers will chase Toledo out for first place. Glassecock's team was weak at the outset, but Jack has made wise selections in the material he has added and now has a team as strong as any in the league."

It is understood now that Torreyson and Loftus have reached an agreement and the Columbus team will trade homes with the Grand Rapids club. Torreyson wants big money but Loftus would not agree to pay it so an exhibition game will be played between the two clubs in Grand Rapids and Torreyson gets the receipts. Torreyson wants \$600 out of the game, and is then willing to quit. Loftus has not signified his acceptance, but it is believed he will soon be in Grand Rapids.

LETTER OF A SURGEON

Major G. W. Neff's Interesting Impressions of the Philippines.

HOSPITAL SCENES AND INCIDENTS.

Philippines Are Weak Physically and Require Our Surgeons' Services. Notable Achievements of the Tenth Pennsylvania Regiment's Second Division at La Loma Church—Animal and Vegetable Oddities.

Surgeon George W. Neff of the Tenth Pennsylvania regiment, in a letter to T. A. Jefferies of Fayette county, Pa., gives some interesting impressions of the Philippines and the experiences of the soldier boys there. The long and bloody campaign which ended in the capture of Malolos, the rebel capital, is described, and Dr. Neff tells of the magnificent part played by the Pennsylvania boys on the field and in the camp, says a Uniontown dispatch to the Philadelphia Press. After the insurgents fired upon the Americans on the night of Feb. 5 until the campaign opened six weeks later the Americans were under the greatest strain, he says, but were eager for the struggle. Speaking of the campaign, Dr. Neff says:

"At early dawn on the morning of March 25 the bugles sang out the command to advance, and the campaign against the saucy insurgents opened. La Loma church, where we were stationed and which the Tenth gained after a gallant charge early in February, stands on elevated ground, and for a mile in front the country is open. The enemy had strong intrenchments all along the edge of the woods, and our soldiers had to advance over the open country in the face of a murderous fire. But undaunted and with perfect alignment the boys in blue moved forward without a waver, determined to do or die.

"In the movement the entire Second division was engaged, and the line of battle was over eight miles long. From our position we could see the Third artillery, the Montana and the Pennsylvania troops. Our boys were led by us gallant and grand as ever unheated a sword. The clarion voice of Colonel Hawkins could be heard above the din of battle giving commands and inspiring his men to duty and honor. When within less than 500 yards of the enemy's breastworks, the command to charge bayonets was given, and with a wild cheer the line started on a double quick. This was too much for the Tagalos, who broke and ran. Here it was that the splendid marksmanship of our boys told truthfully, causing many of the Filipinos to bite the dust.

"The battle had not been going on long when the wounded began to come into the hospital department. Major Hoyt put me in charge of the division hospital dressing station, and most of the wounded passed through our hands. We dressed 50 of our own wounded and 23 Filipinos at the church. We landed at Malolos March 31, and the stars and stripes were run up over the insurgent capital. I witnessed many heartrending scenes during this campaign. I do not believe our people appreciate the magnitude of the battles we fought. There was continuous fighting for six days with an enemy three times our numbers and armed with Mausers, the best of magazine guns. Six rivers also impeded our advancement. When I tell you that our casualties were between 1,300 and 1,200, you can form some idea of the severity of the fighting, and if you could only see the positions from which we dislodged them you would be amazed. Nothing but courage and determination on our side could have succeeded. The Tenth had 8 men killed and 27 wounded in the eight campaigns engaged. The regiment was always on time and elicited the highest praise from the commanding general.

"We were ordered off the firing line April 14 and returned to Cavite. Colonel Hawkins was made commander of the district, and I was made district surgeon. Our regiment from the 4th of February till the 14th of April was under fire all the time. Sharpshooters were continually shooting at us. The hospital corps had two men wounded in the cemetery and three along the route. Since our return we have been very comfortably fixed, but many of the boys have been affected with malarial fever, none seriously, however, and our sick list is going down.

"We have a regimental hospital with 30 beds and a district hospital with 100 beds. We are guarding 1,050 Filipinos, prisoners of war. They are in a most deplorable condition. I found 127 cases of beriberi, which is a peculiar disease in the form of nutritive. The patient becomes paralyzed and then dropsical. They are dying off at the rate of three or four a day. I made application to General Otis, asking to establish a hospital for the sick ones, and the request was granted. On Friday I had them all moved to the old Spanish Marine hospital at Caracac, just north of San Roque, and I think we may be able to do something for them. When we brought them out of the prisons and put them on the cases, they were the sickest lot of people I ever saw, and I really felt relieved and was glad I was able to do something for these poor benighted people. They have a chapel in prison, and it is a very solemn sight to go in and see them in their worship. Their chants and everything around is dismal and weird.

"Since our return from Malolos many of the boys have visited old La Loma church, where they won their first laurels. The church, properly speaking, is a cemetery chapel of magnificent architecture. It is built of adobe, the walls are six or eight feet thick, and the floor is of marble checkered black and white. The dome is gorgeous and is beautified with most elegant paintings. The walls are nicely frescoed and the altar is superb. There is

a beautiful crucifix, life size, in bronze, and the altar is trimmed in gold. Such a building in our country with the cemetery would cost at least half a million dollars.

"The cemetery embraces about four acres. On three sides there is a huge wall at least six feet thick and ten feet high. In front is a massive iron fence, and inside the outer walls are the vaults for the dead. These vaults are built out of stone and resemble a row of coke ovens, with three tiers of niches to receive the bodies. The opening to the niche is about like the opening to a coke oven. The coffin with the body is placed into these little receptacles and the opening is closed with a slab and cemented. The slab bears the inscription. So much is charged for the niche for the first five years, and at the end of that time you can pay a rental and hold it, which is scarcely ever done. If the rental is not paid the sexton takes the bones out and throws them on a pile. There is a stack of human bones here as large as a house. Within the confines of this cemetery we had a hospital and here we stayed from the 1st of February, when the insurrection broke out, until the last of March, when the forward movement was commenced. From the dome of this church the signal was given for Admiral Dewey to open fire on Calocan. MacArthur had his headquarters here till we took Calocan.

"The people here are moral and physically degenerate. Their customs are very strange from our viewpoint, yet they appear to have genius. They are natural born musicians, playing the harp beautifully and singing in the most pleasing manner. They are in dolent and lazy, and appear to be weak physically. As navigators and fishermen they are proficients. The women seem to be more industrious than the men, and in the matter of fine needlework cannot be excelled. The handwork on the pina cloth is most exquisite. The national amusement here is cock fighting. Almost every native of any standing owns a game rooster and seems very much attached to it. He carries it around with him, constantly stroking it with his hand, and even licking it with his tongue.

"The Filipinos have queer ideas of food delicacies. Their menu is principally rice and fish with a few side dishes, such as lungs, snappers, shrimps and eggs hatched until the little chick or egg is about ready to come out. This egg is then cooked and is considered a great delicacy. They dry small fish in the sun and eat them without cooking. They use but very few dishes and in variously eat with their hands. When you see a gang of them around an oven of cooked rice seasoned with chutney sauce and each one helping himself with his fingers out of the same cauldron your mind will instinctively turn to the monkey. They sit like a monkey, feed like a monkey, chew like a monkey and scratch themselves like a monkey. Each tribe has a kind of pigeon lingo.

"This is a grand country, a country of perpetual summer with the foliage green and flowers blooming and fruits maturing and vegetables growing every month in the year. The beautiful palms of so many varieties and most of which produce a fruit in the form of a banana, bread fruit, beetle nut or cocoanut, abound everywhere. Think of it, in this one family of the vegetables, food is produced spontaneously and for the sustenance of the people, and at the same time the nepa palu furnishes that for the houses to keep them dry. Then there is the bamboo, which grows everywhere and is used for everything. It is marvelous what these people can make from it. They build houses out of it, make trunks and satchels, caribou yokes, canteens, mats, coats, baskets, in fact, everything and anything.

"Then we have the mango tree, which is grand and most wonderful. The limbs have the most perfect curves and reach out as much as 70 or 80 feet from the trunk, when they come down to the ground, take root, and another tree grows from this point, and so on, covering acres from the parent stalk. The foliage is a deep green and appears to be perpetual. The mango produces a most elegant fruit, about the size of a goose egg, with a large seed in the center, one tree producing as many as 10,000 of these luscious mangoes.

"Possibly the most complex feature here is the animal kingdom, and our experience with reptiles and animals has been interesting. When we landed at Camp Dewey July 22, 1898, and came in contact with the wet season and all the incidents peculiar to that period, I thought frogs, lizards and mosquitoes were supreme here. The lizards are of every shape and form, amounting to monstrosities, and they are truly hideous to look upon. After we came into Manila and found the house snake, which catches the rats and mice, and the hundreds of lizards that are perfectly harmless and spend their time licking in files and other pests of human kind I was somewhat relieved and felt more kindly toward the reptilian family.

"The water buffalo or caribou is the most wonderful animal here. He is useful, but not ornamental, and he and the coolie, I think, are first cousins. Both have marvelous powers of endurance and many other characteristics in common."

The Best Place For It.
King Corn won a gallant victory in England last year. During the 12 months the British government used 124,000 gallons of corn whiskey in the manufacture of smokeless powder.—St. Louis Star.

A Well Fed Father.
The father of a family, becoming annoyed at the fault finding of his children over their food, exclaimed in a rage one day at dinner:

"You children are intolerable; you turn up your noses at everything. When I was a boy, I was often glad enough to get dry bread to eat."

"Poor papa!" said Rose, the pet of the family. "I am so glad you are having such nice times now, living with mamma and us."—What to Eat.

VIEWS OF A PORTO RICAN.

Native of Ponce, Now a Drummer, Talks of Present Conditions.

The first Porto Rican-American drummer made his appearance recently at Leavenworth, Kan. In the person of J. Affariat of Ponce, Porto Rico. He is selling cigars and appears to be pleased with the amount of business he has done. Mr. Affariat speaks very broken English, having only tackled the language a year ago, but with good results. After Porto Rico was taken by the United States he enlisted in the Second Wisconsin volunteers and was honorably discharged three months later. He has seen much of the world and has served in the Spanish navy. He is quite a linguist, being able to talk Spanish, English, Turkish, Portuguese, Italian and French, says the Kansas City Times.

Mr. Affariat is well pleased with his American citizenship and says all Porto Ricans are. "My people have been kept down for centuries by the Spaniards, and it will take time to make them realize the new conditions," said the drummer. "Schools will have to be established and the people dissuaded from the clergy as much as possible. Each must go his own way as to public affairs."

When questioned as to Philippine affairs, he shrugged his shoulders, exclaiming: "That is a bad business. One American gentleman is worth 100 savages. Spain has been fighting them 300 years and has always had to buy the Filipino leaders. The majority are ignorant, and the leaders have their own way. The American government should send 100,000 soldiers down there and clean them up. I would send Indians and negroes down to the Philippines and let American white men stay at home. Spain lost the flower of her young men in that country. America has plenty of money and so many men."

Mr. Affariat believes the United States has a long struggle before it. He is very pleasing in his address. He visited the home and fort, and both places were a revelation to him.

FUNSTON'S UNUSED BED.

Kansas Hero Refused to Accept It as a Sleeping Couch.

Major Kolbe of the Third artillery (fighting as infantry) is provost marshal of Malolos, which is as good as saying that the surface of the town has been swept up and dumped into the river, says Frederick Palmer in Collier's Weekly. Major Kolbe thinks that it is wrong for a soldier to look at a chicken, lest it should excite his imagination and lead him into temptation. Recently an old wound which Colonel Funston received in Cuba while fighting with Gomez began to trouble him, and his aids, who love the little man when he praises them and love him even better when he condescends them, took it upon themselves to ask Major Kolbe to send a bed from a deserted house to the colonel's tent.

In due time a plodding water buffalo, a bed on a cart and a private of the Third arrived at Colonel Funston's headquarters. The aids recalled that they had not mentioned the affair to the colonel yet and held their breath. "Major Kolbe," said the Third artilleryman, standing as stiff as a rail, "presents his compliments, sir, and sends this bed, which you ordered." "A bed?" exclaimed the colonel. "What in the world do I want with a bed?" "Ordered, was it? Adjutant, you've had something to do with this?" "Well, sir, the rainy season's coming on, and, considering that old wound, I didn't know as you would mind being lifted up off the ground a little."

Inasmuch as he had brought it, the Third artilleryman was allowed to leave it. The adjutant had almost persuaded the colonel to have it in his tent, when suddenly he balked completely. Before rolling up in his blanket on the ground he was reconciled to it as offering a good seat during the day.

Making a Choice.
"Which do you prefer?" asked her indulgent father.

"It is hard to decide," she answered, "but at the price quoted I think the duke is a better bargain than the count. I guess you may buy me the duke."—Chicago Post.

The Real Reason.
"Tapa," said little Tommy to his father, who is a war politician, "teacher told us to find out why the horse is not in such demand as he used to be. Why is it?"

The philosophical Alger reasons that while there may not be more fun in getting fired than in resigning there is at least more glory and a better chance to pay back.

The battle of Concord will be a confusing point in history hereafter. The student won't know whether the affair with British soldiers in 1775 or the more recent Chandler-Gallinger episode is meant.

In Indianapolis there is a rapidly growing movement which has for its object the obtaining of a general Saturday half-holiday for working people in that city. It is a good move. A holiday Saturday afternoon will do much to solve the Sabbath observance problem.

One of the officers of the Oregon regiment just returned from the Philippines says that "a man is needed at the head of affairs, not a woman," meaning in Manila. The observation, while obscure, raises suspicion that he means General Otis. General Otis is not a "woman" in war by any means, but it is evident that he is not big enough to deal with the Philippine situation successfully. General Miles is the man for the job.

The prince of Monaco's refusal to fight a duel with Count Boni de Castellane removes the slight hope which for a moment existed of the passing away of "Anna Gould's pensioner," as he is now called on the Paris boulevards. The prince's refusal is based on the ground that the challenger is beneath him and, as shown by recent investigation of French titles, is not a count at all, having assumed the title without any right to it.

These gentlemen who have in newspaper interviews expressed themselves in favor of Sunday base ball mistake the issue now presented to the people of Fort Wayne. The question is not whether Sunday base ball is a good thing or bad thing, but is it lawful or unlawful. What these

gentlemen should ask themselves is whether or no they believe even a very general sentiment in favor of Sunday base ball is warrant for deliberate and repeated breaking of the law. The matter of how the Sabbath shall be observed is one upon which men may differ if they will, but in the matter of obeying the law good citizens cannot differ.

The objection that the name United States of America is too long is not valid, but if a man is in such a hurry that he cannot pronounce the name of his country in full there are curtailments and abbreviations, thinks the Kansas City Star. People in the territories speak of the states. The Union is a sufficient description, and, above all, there is America. When a man anywhere in the world stands up and says: "I am an American," it is understood that he is a citizen of the United States of America. The word America means, in the old world, the United States—nothing more or less. The word American is destined to expand with the dominion of the United States. The people who come to look at the stars and stripes as their flag will be admitted to the noble order of Americans. Millions of people from other countries, who were once known by other names, are now called Americans, and millions more are to receive the appellation. The idea of renaming the United States is not entirely new, but nobody has found a name that strikes Americans as being as good as United States; no other seems to mean as much and tell as much. A flag has been designed which conveys the idea of a union of states. A change of name might necessitate a change of flag, and a proposal to do that would be met by the whole congregation of seventy-five millions rising to sing "The Stars and Stripes Forever."

NORTHERN INDIANA NOTES.

There will be a reunion of the Jones family in a grove near Wabash next Sunday.

Daniel Whitehead and wife, well-known residents of Peru, are dangerously prostrated from eating dried beef purchased from their grocer. They were taken violently sick in the night.

The sum of \$4,500 has been subscribed by residents of LaGrange for the Angora-LaGrange-Goshen electric railway line. Right of way through LaGrange county is being secured.

A wealthy and prominent citizen of Decatur was found at midnight in his neighbor's poultry yard with a bag of sprung chickens on his back. He begged for mercy and will not be prosecuted.

Mrs. Ivins, who is in her ninetieth year and mother of Postmaster Castetter, at Waterford, has just completed a crazy quilt for her grandson, Earl Castetter, which is now on exhibition in Warsaw.

Thomas Horchhaus, a pioneer widely known over northern Indiana, was struck by a Wabash passenger train at Butler and instantly killed. His home was in Elkhart, but he had been visiting friends in Butler.

Joseph Grass, an Erie railway engineer, with headquarters at Huntington, has been notified by the British government that he has been awarded a medal and 160 acres of land in Manitoba for services as a volunteer in repelling the Fenian raid in Canada in 1886.

Col. C. H. Murray, of the Elkhart council, created a big sensation by openly charging members of the school board with bribery and corruption and intimating that M. U. Demarest was the center of the ring. The trouble grew out of contracts and but few believe that there are any grounds for Colonel Murray's attack.

The state convention of the Indiana Catholic Benevolent league will be held in Laporte August 8th and 9th. The local societies have made elaborate preparations for the entertainment of the large and representative body of laymen which will be assembled there. Edward J. Twomey, of Logansport, state president, will preside.

"Persons who were at the lake front Sunday afternoon between 5 and 5:30 o'clock had the opportunity of witnessing a well-defined mirage of St. Joseph, Mich.," says the Michigan City Dispatch. "The mirage appeared close to the horizon. The hills and piers were plainly observable. The picture appeared for a few seconds and gradually faded away."

The Indiana Volunteer, the soldiers' paper established by Cal Sinsinger, formerly publisher of the Warren Independent and Bremen Enquirer, has suspended. While the 160th regiment was in Cuba last winter Sinsinger was urged, on the return of the regiment, to found a publication in the interests of the Indiana troops. He consented, bought an outfit on his return home and got out a creditable sheet, but only a few subscribers came in response to his appeals.

BOUGHT CREDITOR'S CLAIMS.

HURST BANKRUPTCY CASE IS SETTLED.

E. M. Kahn, of Dallas, Texas, Purchases the Claims—Store Will Soon Be Opened.

A compromise settlement has been reached in the involuntary bankruptcy proceedings against A. K. Hurst, of the Globe clothing house, and the store will soon be opened for business. E. M. Kahn, of Dallas, Texas, a brother-in-law of Mr. Hurst, has purchased the claims of the creditors and has arranged to take the stock of goods in exchange for them. It is likely that Mr. Kahn will place Mr. Hurst in charge of the store.

Previous to making the settlement Mr. Hurst complied with the requirements of the law by filing with Deputy Clerk Logan a schedule of his assets and liabilities. About fifty creditors were named, and the total amount due them was given as \$45,147.49. Of this amount, \$94.50 was taxes due, \$7,500 secured claims, and \$37,552.99 of unsecured claims. The value of the stock, fixtures and other fixtures was given at \$17,000.

LEASES CYCLING TRACK.

Albert C. Alter has leased the Robison park bicycle track for one year, with an option for another year, the deal having been closed Thursday. It is his intention to give several big races this season, but he has not decided whether they will be given under National association or I. A. W. rules. The track at Robison park is one of the finest in the state and it is Mr. Alter's intention to have some of the most noted trackmen in the country ride there. Arrangements will be made soon whereby the track will be lighted by electricity, so that races may be held there in the evening when most people can attend. Mr. Alter will give an amateur race there each week and he will also arrange for several big races by local talent.

KICKED BY A HORSE.

Charles J. Trevy, of 100 Burgess street, was kicked in the chest by a horse at the Standard Oil company's warehouse on Wednesday evening. Dr. Kuhl was summoned and found that the sternum was broken and that the man had suffered internal injuries.

Architect Kendrick is preparing plans for the remodeling of the house at 126 Harrison street, owned by Dr. K. K. Wheelock and which is at present occupied by him as an office. A large addition will be built in the rear consisting of bedrooms and kitchen and a large veranda will be built on the front. Dr. Wheelock will occupy the house with his family as soon as it is completed.

Mrs. George F. Hess, of Delray, Mich., is in the city, visiting her parents, Mr. and Mrs. Paul Siemon, of East Jefferson street.

ANECDOTES OF BONNER.

Interesting Reminiscences of the Noted Publisher.

WAS BOUND TO HAVE HIS WAY.

How the Founder of the New York Ledger Once Insisted on Being Obeyed—Story of How He Made His Record as a Typesetter—His Love for Horses.

Among the many stories related about the late Robert Bonner, founder of the New York Ledger and noted lover of horses, the following are interesting:

A pressman who was employed in getting out The Ledger some years ago related the following story about Bonner: "It was in the days of double cylinder presses," said a tall, white headed pressman, "that I had charge of the press room where The Ledger was printed. Little else was printed there, though the place was not owned by Mr. Bonner, the work being done by contract. But, as the circulation was nearly 100,000 copies weekly, it kept the four presses busy almost all the time turning out the edition.

"Of course Mr. Bonner's word was law, and, though theoretically he should have given his orders and directions to the proprietor, who, in turn, should have communicated them to me, I used often to get instructions straight from the publisher. One morning he came in and looked around as usual, carefully inspecting the work of every press. At press No. 4 he stopped and took off a sheet, which he examined critically. 'John,' he said after a little, 'it seems to me that the big cut on this page is printing too light. I think you should stop the machine and underlay the block a little more.'

"Now, ordinarily, I would not have hesitated for a moment, but it chanced that we were a little behind that week. It was a question whether we should get through at all in time or not, and I didn't like to stop. So I said: 'I hardly think the cut too light, Mr. Bonner. Still, if we must stop and put on more pressure of course we will. But I shall have to get my orders from my employer, not from you. I am responsible to no one but him.' Bonner looked at me in a certain half quizzical way that meant he was mad.

"You won't stop on my say so, eh? Well, we'll see whether you will or not. Now, I tell you to stop that press, take the block out and put it in again bottom side up. I want a good, heavy, black impression, and I don't care whether there is a picture there or not. If you don't choose to take orders from me, well and good. I rather hope you don't, for then we'll see whether your employer is as foolish as you or not. 'Do you mean it?' I asked. 'Yes, I mean it,' was the reply, 'and when you get the block bottom side up I want you to let the press run with it that way till I tell you to stop.'

"Well, I had the block changed and the press running again in a jiffy, and Bonner walked out with his head up and a satisfied look upon his face. I expected to get instructions to change the block back in a few minutes, but when it came time to knock off for midday dinner no word had come. At 1 o'clock, when we started up again, the order had not yet arrived. Hour after hour of the afternoon passed, and the pile of spoiled sheets was very large. But that was not the worst of it. It was then much more of a question than it had been in the morning whether we could get the edition off at all in time or not.

"Finally at 4 o'clock I went to Bonner's office and was shown into his own room. When he looked up at me, an expression of consternation flitted across his face. 'Haven't you changed that block yet?' he cried. 'No, sir,' said I. 'You said you'd tell me when you had had enough paper spoiled. We shall have to run day and night now or miss the edition.' 'Well, you are an ass,' said Bonner. 'But you obeyed orders for once in your life, didn't you? I suppose you know I'm good for the money for the extra time, and you also know what will happen if the paper is late.' Well, the paper wasn't late, but Mr. Bonner had to pay a pretty penny for his fun of giving orders in the pressroom."

Mr. Bonner was fond of relating an anecdote to prove his skill in typesetting. "I never made," he said, "but one bet in my life. I came to New York a compositor in 1815 and never met but one man who could set type as fast as I could. His name was John Hand, and he was, until his death, one of the proprietors of the Galveston Daily News. I was badgered into betting \$10 that I could beat him in setting up the president's message. In 20 hours and 25 minutes I set up 25,500 ems and won the money, which I declined to accept, as I do not believe in betting."

Fond as Mr. Bonner was of horses and vast as was the sum he invested in them, he never bet a cent on a race nor allowed one of his horses to be matched for money. He did most to develop the trotting horse in America, but he plainly defined his position when, seven years ago, he was challenged to race Sunol against Nancy Hanks. He wrote an open letter, in which he said, "Under no circumstances will I ever allow one of my horses to trot in a race against another horse for any purpose whatever."

Mr. Bonner perfected a system of horseshoeing which is in general use today and about which he was willing to talk for hours with congenial spirits on his stock farm at Tarrytown. "Balancing the hoof" is the keynote of the Bonner system of horseshoeing. His farm in Westchester county and his stables in New York are horse heavens.

WOMANLY

A sweet woman, the picture of health, speaking with enthusiasm, said, "I don't see why you do not send out women to talk to women about the merits of Pabst Malt Extract, The 'Best' Tonic. There are so many women that are rundown, with nerves shattered, with a lack of vitality, feeling a sort of restless indecision which is an outgrowth of over-exertion. If you could only get a woman who knows as well as I do how 'Best' Tonic will build one up, and who has enough earnestness to tell them about it, you would certainly have largely increased sales. There is Mrs. —, who was as thin as she could be, and her poor little baby, puny and undeveloped. I told her about 'Best' Tonic. In three weeks you ought to see the difference. The improvement is something great; mother and baby both feel it and show it."

THE PEOPLE'S STORE.

At a time when we are enjoying a very good business, we find invoicing time close upon us, and in order to greatly reduce our stock of Dry Goods, etc., it becomes necessary for us to announce that OUR

GREAT SEMI-ANNUAL CLEARANCE SALE

IS NOW GOING ON, and Will Continue Till AUGUST 1st.

Regardless of the fact that Dry Goods of every kind have greatly advanced in price of late, we shall, DURING THIS SALE, SELL GOODS JUST AS CHEAP as WE HAVE EVER DONE BEFORE, for the reason that we purchased the bulk of our stock previous to the rise in prices. We doubt if the chance will ever occur again for the purchasing public of this community to buy DRY GOODS so LOW IN PRICE. Space will not permit us to advertise all the GREAT BARGAINS we have in store for you, but the list below will give you some idea of the GREAT CUTS we have made in every department.

Read the List and Prices Carefully. =: Every Article Precisely as Advertised.

SECOND STRATUM OF GAS ROCK.

Commenting upon the satisfactory results realized at the experimental well sunk in the Jay county field, where the drill was sunk down 3,500 feet into a stratum known as the Lancaster, a sort of second layer of Trenton, the Kokomo Tribune wonders whether "the dream has come true and there is a second stratum of gas-bearing rock," as the deep well indicates. It is stated that the results obtained at the Jay county well are satisfactory even beyond the

fondest hopes of those who promoted the scheme, and that the company is buying up all the leases in that vicinity that the formers will dispose of. "It is believed," says the Kokomo paper, "that practically a new field of gas has been found just beneath the old layer. It is a fact that gas seems to exist in a layer just below the rock of the Trenton period. When a hole is bored through the Trenton stratum the gas escapes. This is all that a natural gas well means. It is entirely reasonable to suppose that if gas existed below the

first Trenton layer, it may also exist beneath the second or Lancaster layer. This would not be the case necessarily, but is not unlikely to be true. The outcome of the experimental wells that are being placed by the Ohio and Indiana company will be watched with interest, at any rate, and if the supposed state of affairs really exists, it is probable that the Indiana gas belt will take a new lease on life, the fuel question will be settled for many years to come, and the present great prosperity of

the gas region will continue indefinitely."

ANOTHER SWORD FOR LAWTON.

South Bend, Ind., July 14.—Members of Company F, One Hundred and Fifty-seventh Indiana volunteers, have started a movement for the presentation of a sword to General Lawton, the Indiana soldier who has most distinguished himself in war. The proposition to raise the money with which to buy the gift was made last night and in less than five min-

utes over \$50 had been pledged. It is the intention to raise a large enough amount to purchase a sword mounted in gold and diamonds. The promoters of the scheme will accept no subscription except from members of the One Hundred and Fifty-seventh regiment. This organization, famed as "Studebaker's Tigers," was the first volunteer regiment to be mustered into the regular army, and recently met in the city and presented Col. George M. Studebaker, Lieut. Col. Will T. May and Chaplain Medbury with costly gifts.

DEATH OF COLONEL SMITH.

St. Louis, Mo., July 14.—Lieutenant Colonel Smith, in charge of the United States quartermaster department here, died at his home last night. Except for his housekeeper nobody else was in the house, his wife being absent in Arizona, visiting a married daughter. Yesterday Colonel Smith complained of stomach trouble, but he was apparently not seriously ill. Colonel Smith, who was born in New York, entered the service at the outbreak of the civil

war as first sergeant of company D, Fifth California infantry. At the close of the war he entered the regular service as second lieutenant of the Ninth infantry. Soon after he was transferred to the quartermaster department, advancing to his present rank. Colonel Smith has been stationed here for several years, during which time he handled millions of dollars.

The exquisite and lasting odor of Satisfaction Bouquet recommends it to all lovers of fine perfumes.

PATTERSON'S SALE

Which began this morning--like this "ad" is at the top of everything in sight, and is seen first by the wise and prudent man who is desirous of buying a high-grade suit "at a price" that would make a man, who is not acquainted with our store, wonder what could be wrong with the suit.

Men's and boys' crash suits, linen and straw hats from 25c to \$2.00, 200-50c white shirts; flannel and alpaca coats and vests. 200 child's suits, ages 3 to 8, and boys' knee pants, all go at just one-half price during this sale.

Don't wait for your neighbor to show you the bargains that he bought--show your neighbor the bargains you bought. "He Who Hesitates Is Lost."

REUBEN S. PATTERSON, The man who never hesitates to stir up the bargain seekers.

SOLDIERS COMING

PENNSYLVANIA COMPANY WILL
MOVE THE NINETEENTH.

WILL REQUIRE SIX TRAINS.

CARS NOW EN ROUTE TO CAMP
MEADE.

PRESIDENT OF PLANT SYSTEM.

BRIEF SKETCH OF COLONEL
O'BRIEN'S CAREER.

The Nineteenth United States infantry, which has been expected this way for over three weeks, will probably reach Fort Wayne some time Monday afternoon or night. The Pittsburgh, Fort Wayne and Chicago road has been employed to carry the men and the camp equipment to Chicago and is now sending cars east for that purpose. Last evening there passed through here thirty-five tourist cars and two baggage cars, all the equipment in that line now disengaged on this end of the road. The other cars will be furnished by the eastern division. There are nearly 1,300 men in the Nineteenth regiment and to move them and their baggage and camp outfit will require six trains. Last night, while endeavoring to stop at Davis for water, the train of empty tourist cars had a mishap which resulted in a delay of an hour or more. The airbrakes became deranged and two of the cars had their platforms crushed.

FREIGHT AGENTS MEET.

The local freight agents of the city held their semi-monthly meeting at the pavilion in Robison park yesterday afternoon. Nothing of much importance to the public occurred, the business being of the routine order. In the party were C. H. Newton, H. C. Mcderwell, F. E. Sawyer, E. S. Philley and H. M. Quicksell.

A MOONLIGHT EXCURSION.

Master Mechanic G. S. McKee and General Foreman D. J. Timlin, of the Wabash, who are members of the St. Louis Railway club, have been notified that the next meeting of the club, which takes place next Tuesday, will end in a moonlight excursion down the river. Messrs. McKee and Timlin may decide to attend the meeting.

VANDERBILT WANTS IT.

Under the litigation against the Clover Leaf is carried to the United States supreme court it is thought the property will be out of the hands of the receivers in six months. It is said that both the Lake Shore and the Erie would like to secure the Clover Leaf at the foreclosure sale. The Lake Shore (or Vanderbilt) interest was negotiating for the control of the property some years ago, but abandoned the project, which has now been taken up again.

RIG EXPRESS ENGINES.

The dimensions of the new Pittsburgh and Western fast express engines are as follows: Weight in working order, 133,000 pounds; on drivers, 80,000 pounds; total weight, engine and tender, 225,750 pounds. The driving wheels are 70 inches outside of tires; cylinders, 20x26; extended wagon-top boiler, 82 inches in diameter at the smallest ring, 334 2-inch tubes; fire box, 108 inches long by 33 1/2 wide; working pressure, 180 pounds; water test, 275 pounds.

WANATAH COAL DOCKS OPEN.

This morning Supt. J. B. McKim, Master Mechanic B. Fitzpatrick and Civil Engineer E. G. Ericson went to Wanatah to make final tests of the new coal docks and to put them in operation. These are the finest and most convenient coal docks along the

line of the Pittsburgh, Fort Wayne and Chicago road. They are away from crossings and are otherwise so arranged that trains going east or west can stop for coal, and when supplied move again without having to cut the engine loose from the train.

WIRES DOWN.

During the storm at 3 o'clock yesterday afternoon all the Nickel Plate wires were broken or crossed at South Whitley and for two or three hours communication with points west of that place was cut off. No damage, as far as reported, occurred elsewhere.

A REMARKABLE CAREER.

Col. M. J. O'Brien, who has been elected to succeed the late Henry M. Plant, has been in the employ of the great Southern Express company for many years. He began as a driver of one of the wagons of the Adams Express company, and worked his way up in that service until the Southern company hired him. Then his real career in business began. Thirty years ago Mr. O'Brien became the secretary of the president of the Southern Express company, and now he is himself the president of that great concern. When Mr. Plant died Mr. O'Brien was taking a rest in Europe, but he at once returned to Georgia, and his election as president followed immediately. Colonel O'Brien served in the confederate navy during the war, and was attached to the fleet of Commodore Poindexter until it was destroyed to prevent its falling into the hands of the enemy. When the colonel was the superintendent of the Southern company, it is said that he traveled no less than an average of 30,000 miles a year.

THE EXCURSION ASSURED.

The Sentinel a few days ago mentioned a movement looking towards an excursion to Sandusky by the electric light boys. Preliminary arrangements were completed yesterday for an excursion to that point on August 26th, the last Saturday in the month. The "boys" expect to take about 400 people with them, as a cheap rate has been secured.

NOT AFTER THE NICKEL PLATE.

President Truesdale, of the Lackawanna, says there is no foundation for the report that his road is anxious to absorb the Nickel Plate and secure a through line to Chicago. Apparently the owners of the roads are satisfied with the traffic alliances they have at present. The Vanderbilts own the Nickel Plate, and are largely interested in the Lackawanna, but there are many reasons why a consolidation of the two roads would not be to the interest of either.

ASSIGNMENT COMPLETED.

The changes in the clerical force of the Pennsylvania company at this point, reference to which was made in The Sentinel a few days ago, is now complete. The following gentlemen were benefited by the change, each being a promotion in the order named: Frank J. Greer and Clarence Haynes, timekeepers, with desks in the superintendent's side of the building; John Wolfrum, clerk and stenographer in the trainmaster's office; Ed. Hobrock, L. G. Daitley, H. H. Logemann, Henry Heine, Fred Passino and Ernest Stubatzky. The latter is messenger in Master Mechanic B. Fitzpatrick's office and is the only new employee in the entire list.

LENNART RESIGNS.

John P. Lennart, who has been with the Kerr Murray Manufacturing company for the past ten years, tendered his resignation this morning, the same to take effect immediately. Mr. Lennart will engage in business for himself, but does not care to state at this time just what it will be.

INDUSTRIAL NOTES.

Walter Fox, of the electric works, is off duty on account of sickness. Foreman C. F. Knothe, of the ma-

chine room at the electric works, is detained at home by sickness.

Master Mechanic George James, of the Nickel Plate, was here yesterday afternoon.

Brakemen Gallivan and J. A. Deahl, of the Nickel Plate, are taking a lay off.

N. C. McKinney, chief lineman of the western division of the Pittsburgh, is taking his summer's vacation.

Al. Becker, Nickel Plate engineer, is taking a lay off of a few days to look after some business matters.

D. N. Markle, Nickel Plate fireman, who was visiting at Fort Huron, Mich., three weeks, reported for duty on the road yesterday.

Conductor B. Cowdry, who had been away on a vacation, resumed his place on the Nickel Plate yesterday.

F. J. Summers, a flue cutter at the Pittsburgh shops, will spend a two weeks' vacation at Rome City, fishing.

Master Mechanic P. F. Smith, jr., of the Toledo division of the Pennsylvania lines, was in the city yesterday.

John Reidel, of the Pittsburgh planing mills, is working again, after an absence of several days on account of sickness.

Machinist J. A. Nolan, who had a hand injured two weeks ago, resumed work in the Pittsburgh shops this morning.

Nickel Plate Engineer George Cooper has returned from Ohio, where he spent a month with friends and relatives.

George Bireline, sweeper in the Pittsburgh carpenter shop, has recovered from his recent illness and is at work again.

Work is about to begin on the tunnel to be constructed under Lookout Mountain, at Chattanooga. The work will cost about \$2,000,000.

Donald McDonald went to Sharon, Pa., today to inspect steel wedges for the Pennsylvania company. The work will occupy about one week.

The business of the western lines on account of the National Educational association's convention at Los Angeles, was not up to expectations.

Frank Royce, machinist at the Wabash shops, has returned from Kansas City, after a three weeks' sojourn there, and this morning took his place in the shops.

The track foremen of the middle division of the Pennsylvania are required to take a course of instructions in the art of track laying and maintenance by riding over the road with the supervisors at different times.

Engine 163, an extra passenger locomotive on the Nickel Plate, was turned out of the Stony Island shops yesterday. Engine 164 was also turned out of the same shops today. It will go into service on the eastern division.

The new Wooten-Belpaire engine of the Pennsylvania is to be given a trial on the Atlantic City road this week, and is expected to develop an average speed between Atlantic City and Philadelphia of seventy-five miles an hour.

The Northwestern has 246 miles of new road under construction. The new lines are being laid with heavy steel rails and the roadbeds are gravel ballasted. They tap fertile fields and will add considerably to the traffic of the main line.

The engineers on the Chicago and Alton are complaining of the severe tests to which they are being subjected in the examinations touching the manipulation of air brakes. It is claimed that the examinations are technical rather than practical.

John E. Lennart, foreman of the carpenter work at the east car shops, has purchased a lot on East Creighton avenue, upon which he will build a house for his own occupancy the coming fall. The deal was made through the Lennart & Zorbaugh agency.

Cornelius Vanderbilt, jr., was at the throttle of an engine that hauled a party of New York Central officials upon an inspection tour yesterday. Young Vanderbilt takes considerable pride in his knowledge of the engine, and his ability to handle the throttle.

Superintendent J. C. Moorhead, of the Erie lines, states that the greatest difficulty in arranging for the Erie trains entering Springfield, Ohio, is the fact that they have to

back into town, which he considers quite dangerous. This is taken to mean that the Erie will not enter the city.

Mr. and Mrs. Thomas P. Roberts, of Pittsburgh, passed through the city this morning, en route to Mackinac Island. They came in on No. 15 at 3 o'clock and left on No. 7 at 8:45, spending the interim at the New Avenue. Mr. Roberts is chief engineer of the Pennsylvania railroad.

Fireman R. J. O'Neil, of the Wabash yards, reported for duty this morning. He had been spending a ten days' vacation in the country. Fireman C. W. Aulls, who had been working on the switch engine during the absence of Mr. O'Neil, returned to Peru this morning to resume his place in the through freight service.

Tomorrow will be the twenty-second anniversary of the reformation of Thomas Mills, the well-known machinist, who never fails to celebrate the day as one of the most important epochs of his life. Francis Murphy, the great temperance lecturer, was holding meetings in this city, and among one of the first to join in the movement was Mr. Mills, who has faithfully fulfilled the promises he then made to abstain from the use of all intoxicating drinks.

Martin C. Fallon, of Providence, R. I., arrived in the city this morning and next Monday will take a position at his trade in the locomotive department of the Pittsburgh shops, under Foreman Hugh Hagan. Mr. Fallon served an apprenticeship in the Rhode Island Locomotive works. During the war he was aboard the repair ship Vulcan, which served as a machine shop in Sampson's fleet, and was at Santiago de Cuba when the naval battle occurred. Mr. Fallon is a nephew of P. J. Fallon, of the pension office, who came up from Indianapolis to meet him and introduce him about the city.

THE WEATHER.

Chicago, July 14.—For Indiana—Threatening weather with occasional showers tonight and Saturday; continued warm; winds mostly southerly.

LOCAL NEWS.

Edgar Kretzinger has gone to Marion, Ind., to spend a few weeks with his father's uncle and aunt.

Miss Adele Schwedes, of Terre Haute, is the guest of Rev. and Mrs. Bosch. Mrs. Bosch is a sister of Miss Schwedes.

Mr. and Mrs. J. W. Palmer, who have been the guests of Mr. and Mrs. George Loesch, returned to their home in Chicago today.

Mrs. Enoch Cox and daughters, Misses Jo and Ethel Cox, will go to Columbus, Ohio, tomorrow to visit Dr. and Mrs. J. M. Kells.

The social which was to have been given in Bloomingdale last evening by the members of the Royal Neighbors, was postponed on account of the rain and will be held in Harmony hall this evening instead.

Rev. Theodore Hermann, of Lafayette, who has been the guest of Rev. and Mrs. Bosch, of West Washington street, for a few days, left yesterday morning for Cleveland, where he will be married on Wednesday to a young lady of that city. In company with his bride he will stop over in the city for a few days on his return trip.

The Iroquois club at its meeting last night elected the following officers: President, A. Feulner; vice-president, William Stier; financial secretary, E. Rosenberger; recording secretary, Michael Avers; guide, E. McKinzie; treasurer, Wm. Roembke; trustees, Heine, Braun and Haight. The club is a social organization, which includes some of the leading young people of the south end.

The birthday anniversary which was held in the St. John's Reformed church yesterday afternoon and evening was a decided success, socially and financially. A sum of money amounting to about \$75 was deposited in the box and it will be added to the organ fund. During the day an excellent program, consisting of musical numbers, readings and recitations, was rendered, besides several impromptu numbers which added greatly to the enjoyment of the occasion. Rev. Bosch made an excellent speech, as did also Rev. B. Ruf, of the Reformed orphans' home. The musical program was under the direction of Mrs. Bosch. A most enjoyable day was spent by those who attended, of whom were a large number in spite of the inclement weather.

DEWEY IN HASTE.

DISPATCH FROM ADMIRAL DEWEY AT PORT SAID.

IN VOLUNTARY QUARANTINE.

WILL PROCEED AT ONCE TO TRIESTE.

WANTS CLEAN HEALTH BILL.

WILL THEN HURRY THROUGH THE MEDITERRANEAN.

Washington, July 14.—Secretary Long has received the following cable message from Admiral Dewey:

"Port Said, July 14.—Secretary of the Navy, Washington: Olympia in voluntary quarantine. As soon as cooled, proceed to Trieste for practice and recuperation, officers and men."

Inasmuch as he is silent on the subject, it is assumed that no change has occurred in the health of Admiral Dewey and his men since their departure from Hong Kong when all were reported well.

It is said at the navy department that the admiral's reference to "practice" means simply that he is going to Trieste to get a clean bill of health that will enable him to continue his voyage through the Mediterranean without delays from the health authorities at the various points.

ESCAPED A MASSACRE.

San Francisco, Cal., July 14.—The officers of the Second Oregon regiment while very guarded in their statements, admit that the condition of the American troops at Manila at the outbreak of hostilities between the United States was very critical.

The capture of a letter sent from inside our lines in Manila to an emissary of Aguinaldo is probably all that saved our army from a terrible disaster and possible annihilation.

The letter was taken to General Otis, who found it to be the plans of a plot to open the gates at Manila, sack the city, murder the guards and allow the insurgent army to pour into the American camps and surprise the men.

The United States troops were under arms all night to meet the expected attempt, but the enemy had learned of the capture of the letter and the only part of the plot that was carried out was the burning of a portion of the city of Manila.

HEWITT WANTS DAMAGES.

In the superior court Melvin Hewitt, through his next best friend, George Hewitt, has commenced suit for \$105 damages against Barney Novitsky. He alleges that one day in June while he was riding his bicycle on Clay street, Novitsky carelessly drove into him with a horse, knocking plaintiff to the ground, rendering him unconscious and breaking his wheel. It is claimed that plaintiff was confined to his home for three weeks and incurred as a result of the accident a doctor bill of \$25, for all of which he asks damages in the sum of \$105.

WILL DECLARE A DIVIDEND.

Tomorrow Referee Chapin will declare a dividend of the assets of the J. F. Schell Loan and Investment company in favor of the creditors whose claims are proved, and it is believed they will receive about ten per cent. on the amount of the claims. Payment will doubtless be made next week. This is the first dividend and another may follow later.

TEACHERS ARE COMING.

Next week the teachers of this district of the Ohio Lutheran synod will hold a conference at St. John's Lutheran church in this city. The session opens Wednesday and continues until Friday, and the teachers are expected to be present and preparations are being made to make their stay in Fort Wayne both pleasant and profitable. A feature of the session will be a concert on Thursday evening given by the young people's societies of St. John's Lutheran church.

WILL OPEN TOMORROW.

Tomorrow morning Sergeant James A. Stewart will open a recruiting office in the Foster block, 17 Court street, for the enlistment of men for all branches of the United States military services. Dr. C. E. Barnett will be the examining surgeon. Recruits are desired for both the regular and volunteer service, though vol-

unteers are preferred. The term of enlistment for the regular service will be three years, while the volunteers enlist for two years unless sooner discharged.

TO HAVE MORE SAIL.

Southampton, July 14.—It transpires that a new boom, even larger than the present one, is being constructed for the cup challenger Shamrock in the belief that a lighter air in America will enable her to carry a considerable greater expense of canvas than during her trial race with the Britannia.

DEATHS FOR THE QUARTER.

Secretary Proeger, of the county board of health, has prepared his statement of deaths for the quarter ending June 30. There was a total of 104 deaths in the county, most of them within the Fort Wayne city limits. More deaths were caused by consumption than any other one disease.

FLAG INCIDENT IN HAWAII.

Honolulu, July 7. Via Victoria, B. C., July 14.—There was a "flag incident" here on the fourth of July which promises to be made an international episode. Carl Klemme, the proprietor of the Orpheum hotel, gallantly decorated his building in American colors, hoisted the American flag over it and under the American flag the German. Later a friend of his wanted to use an American flag and Klemme good-naturedly loaned him his, leaving the German flag floating alone from the flagstaff.

J. H. West saw it and ordered Klemme to haul it down. There has been ill-will between the two men before and Klemme refused to take orders from his enemy. West thereupon gathered a lot of soldiers from the transport Sheridan and showed them the German flag floating on the fourth of July in American territory. The soldiers at once proceeded to the roof, tore down the German flag and destroyed it and put into its place some red, white and blue bunting torn from the other decorations of the buildings. West was today fined \$100 in the police court for malicious mischief and the German consul general will make a report of the matter to his government.

THREE-CENT FARE IN DETROIT.

Detroit, Mich., July 14.—"Three-cent fares" are announced today on the fronts of Detroit street cars in the places where amusement advertising signs are usually carried. This sudden voluntary reduction is the result of a decision of Governor Pinckney and Tom L. Johnson to give the people an object lesson upon what they may look forward to, if present plans for the sale of all the Detroit street railways to the "Detroit Municipal Railway company" in behalf of the city win out.

CAPTAIN REESE RETURNS.

Capt. Charles E. Reese returned from Chicago today and will remain a few days to arrange his business affairs before returning to take his command as a captain in the Thirtieth regiment of United States volunteers.

REFUSED A NEW TRIAL.

Judge Heuch this morning overruled a motion for a new trial in the Geisendorfer divorce case and entered a decree awarding the divorce to the husband. The case will be appealed to the supreme court.

ST. LOUIS GLOBE DEMOCRAT: "CRIGER IS NO LONGER THE GENTLE LITTLE CHAP HE WAS WHEN HE ENTERED THE LEAGUE IN 1896."

In the early games at League park this season he had little or nothing to say. When the first losing streak was on Lou developed into a kicker of the first stripe, and was an able companion for Tebeau, O'Connor and Burkett in fighting for the club's rights. Wednesday Emslie took him out of the game for getting too violent. Criger is a great backstop and hard stick. He makes a mistake in fighting the umpire, as Tebeau, Burkett and O'Connor are fully able to do all the playing in that line.

BANK OF PERTH AMBOY, N. J., OUT OF CASH.

DEFAULTER CAN'T BE FOUND.

LEAVES A WIFE AND THREE CHILDREN.

New York, July 14.—The Middlesex County bank, of Perth Amboy, N. J., has closed its doors. Cashier Edward M. Valentine is reported to be missing, with \$100,000 of the bank's money.

The president of the bank, U. B. Watson, informed the police of Perth Amboy last night of the condition of affairs and reported that Valentine had not been seen since Monday last. The details of how the money was converted or misappropriated are not known. Expert accountants are at work on Cashier Valentine's books and until they finish their work the amount of the shortage cannot be accurately stated. Cashier Valentine has been in the employ of the Perth Amboy bank for several years. He was considered a man of steady habits and lived with his family in Perth Amboy. His family consists of his wife and two or three children. He is under 40 years of age. Mrs. Valentine and the children are understood to be at Ocean Grove.

The Perth Amboy bank was established about twenty-five years ago and was considered one of the oldest and solidest banking institutions in New Jersey. The failure of the bank to open its doors for business today drew a large crowd to the vicinity and the police were employed to preserve order.

The chief of police of Perth Amboy is authority for the statement that Cashier Valentine's detachments amount to \$100,000.

MORE GOLD FROM ALASKA.

Port Townsend, Wash., July 14.—The steamship Orizaba arrived from the north this morning, bringing fifty returning Klondikers, most of whom have gold dust ranging from \$1,500 up to several thousand. The ship's strong box contains 100 pounds of the yellow metal from the interior. This party arrived up river from Dawson on the steamer Terrill. Some passengers direct from Atlin report that claims in that district are being worked. They say that Judge Irving, who was sent to Atlin to straighten out mining properties, is giving great satisfaction, and in awarding all claims to original locators they are permitted to commence work. It makes no distinction between Americans and Canadians and holds that Americans who have taken out miners' licenses in accordance with the laws in British Columbia and, prior to the passage of the alien exclusion law, located claims, are entitled to the same privileges as Canadians.

GENERAL LORD DEAD.

New York, July 14.—Brigadier General Russell Farham Lord, whose sister is the wife of ex-President Benjamin Harrison, is dead at his home in this city, aged 61 years. He was commissioned brigadier general of Pennsylvania volunteers during the civil war and served as an organizer of regiments. Then he went west and engaged in mining engineering. In 1886 he became chief engineer of the government of Salvador. Afterward he had charge of the development of valuable mines in Ecuador.

W. C. WHITNEY'S LOSS.

New York, July 14.—The fire on the William C. Whitney estate at Westbury, L. I., last night, did not destroy the house, as was first reported, but burned one of the largest barns. The total loss is estimated at from \$60,000 to \$70,000, much of this sum being represented by some twenty fine horses, including several of Mr. Whitney's racers, which were burned.

A NEW SCHOOL HOUSE.

Trustee Schmeizer has awarded contracts for enlarging and remodeling the school house at District No. 3, near the county asylum. Under the new order of things it will be a township graded school of two rooms, very conveniently arranged, and the improvements will cost about \$2,500. Contractor Grotholman will do the carpenter work, Contractor Pohlmann the masonry, John H. Welch the slate roofing and Israel & Helme the painting.

NEWS IN THE POLICE COURT.

THEODORE KNOX ARRESTED FOR LARCENY.

The Officers Are Hunting for Orville A. Thorne, Who Was an Accomplice.

Justice Francis presided at police court this morning and was confronted by three prisoners. Theodore Knox, a boy who resides at 14 Lafayette street, was arrested on a charge of larceny, it being alleged he was an accomplice of one O. A. Thorne, who is accused of stealing a bicycle and some wearing apparel of Miss Bertha Craig. Thorne secured a wheel of A. C. Katt and did not return it, but went away on a visit. The police hunted for the wheel and found it up stairs at 14 Lafayette street, crated and ready for shipment.

Thorne was employed by D. N. Foster to care for his horse and he had his trunk in the Foster barn. Employed at the Foster house was Miss Bertha Craig, who requested Thorne to move some of her clothing. He did so, and a mackintosh and a fine dress turned up missing. The mackintosh was recovered and Thorne's trunk was found at the home of a relative who resides in Lakeside. It is believed that he presented the dress to a girl friend, Georgiana King, who is away on a visit.

Thorne was given a tip that the officers were after him and skipped out, but his friend, Theodore Knox, was arrested and at first denied any knowledge of the stolen property, but finally admitted that Thorne gave the mackintosh to him. His case was continued until tomorrow in the hope that Thorne may be located in the meantime.

William Conghlin, alias "Johnny Applesced," was arrested for drunkenness. He was in a belligerent mood last evening and smashed Officer Roxy in the face. Squire France sent him to jail for nineteen days.

John Lau, a drunk arrested by Officer Rhum, was sent to jail for twelve days.

SALE IS ORDERED.

DECREE ENTERED IN THE STREET RAILWAY CASE.

NO DATE FIXED FOR THE SALE.

H. C. ROCKHILL IS APPOINTED CO-RECEIVER.

AND WILL SELL PROPERTY.

FOURTEEN THOUSAND DOLLARS ALLOWED ATTORNEYS.

Judge O'Rourke at 12 o'clock today entered his decree for the sale of the Consolidated Street Railway at public auction, but did not fix upon the exact date, which will be some day early in September.

The attorneys for Thomson and others and the Guaranty and Guardian Trust companies submitted to the court an agreement withdrawing all motions and objections to findings and modifications and requested Judge O'Rourke to make his decree of sale.

The judge finds that there is due the Guaranty Trust company, of New York, and S. B. Bond, trustees on 400 bonds of the Fort Wayne Electric company, \$734,820.64, which is a first lien on all the property of the railway company, subject to claims, and receivers' certificates. The Guaranty Trust company is allowed \$1,200 as trustees, and S. B. Bond is allowed \$300. Davies, Stone & Auerbach; Squire, Sanders & Dempsey and Barrett & Morris are allowed attorneys fees in the sum of \$8,000. These allowances are made on the suit for foreclosure of mortgage on the original \$800,000 bonds.

Judge O'Rourke finds also that there is due the Guardian Trust company, of Cleveland, Ohio, and S. B. Bond, trustees, from the Fort Wayne Consolidated Street Railway company, upon the 1,500 bonds and mortgages, \$2,085,321.78, subject to purchase mortgage liens and certificates adjudged prior thereto. The Guardian Trust company and Mr. Bond are allowed \$300 each as trustees. Squires, Sanders & Dempsey and Barrett & Morris are allowed \$8,000 attorneys' fees.

On the intervening petitions and cross complaints of Nicholas Thauron and others, and answers of defendants thereto, the court, by consent of the attorneys, find for the defendants.

John H. Bass, receiver, submits a statement of obligations owing by the receiver, which aggregate in excess of \$50,000. This is first to be paid and then allowances are made of obligations aggregating almost \$80,000, which must be paid after the first mortgage bonds are cancelled.

The following mechanics' liens must then be paid: E. Gilmarlin, \$1,751.20; F. M. Smith & Co., \$580.67; H. C. Lyman, \$1,268.67; Degnon Construction company, \$97.31. There are two claims due on Robinson park, one for \$10,373, bearing 6 per cent. interest from December 10, 1895, and another of \$1,781.20, bearing 6 per cent. interest from January 8, 1896. Another preferred claim for \$29,427.34 is held by the First National bank of this city.

In the judgment on the foreclosure of the 600 mortgage bonds Judge O'Rourke includes the attorneys' fees, making the total \$732,220.64. The court finds that neither Frank DeHass Robinson nor Sarah C. Robinson, his wife, has interest in the property, which is described minutely, and orders them to convey to the receiver, John H. Bass, deeds conveying and relinquishing all their rights, titles and interest in any and all said premises within twenty days. Upon Robinson's failure to convey such deeds, then E. F. Harper is appointed commissioner and authorized to execute a good and sufficient deed of deeds and conveyance to John H. Bass, receiver, conveying and releasing all the rights, title and interest of said F. DeHass Robinson and wife.

Then follows a decree of foreclosure, which is rather voluminous, containing a complete description of all lands and personal property owned by the street railway company.

The property is to be appraised in its entirety by William E. Mossman, Daniel L. Harding and George E. Potter. Appraisement is to be a fair cash value and the appraisers must make their report within twenty days in writing. Each appraiser is allowed the sum of \$75 for his work.

The decree then orders that the property shall be sold in its entirety for cash, at public auction, to the highest bidder, at the north door of the building at present used as a

MAY BE CALLED TO KOKOMO.

REV. SHERMAN POWELL UNDER CONSIDERATION.

Committee From Grace Church Heers the Fort Wayne Pastor—A Favorite Report.

Rev. Sherman Powell, of Trinity M. E. church, may be called to the pastorate of Grace Reformed church at Kokomo, to succeed the late Rev. E. T. Gregg. No decision has yet been reached in the matter, but Judge Elliott, of Kokomo, acting as a committee from the Grace church, came to Fort Wayne last Sunday to hear Rev. Powell, and it is understood that he made a very favorable report to his church concerning the ability of the Fort Wayne pastor.

Rev. M. S. Marble, presiding elder of the Kokomo district, was also in the city a day or two ago conferring with Presiding Elder Simpson in the matter.

When asked about the proposed change this morning, Rev. Simpson said: "It is true that Rev. Powell is under consideration for Grace church, as are also several other pastors, though no decision has yet been made. I regard Rev. Powell as among the leading young pastors, and Grace church is one of the most important appointments in the conference. The choice of a pastor will no doubt be made very soon."

Mike Trost has been released by Youngstown and Lattimer is catching.

DEATHS AND FUNERALS.

HOLVERSOTT.

Miss Mabel J. Holversott, fourteen years of age, died at 9 o'clock this morning at her home, 519 South Broadway. She was the daughter of Charles Holversott, one of the oldest employees of the electric works. For several months she has been in poor health and death was due to a complication of diseases. Funeral services will be held Sunday afternoon at 2 o'clock from the home and at 2:30 from the West Jefferson street church of Christ.

WELLMAN.

At 11 o'clock this morning at her home, 112 Jackson street, Mrs. Sophie Wellman, widow of Frederick Wellman, passed peacefully to the Great Beyond after suffering a long time with that dread disease, consumption. She was fifty-four years of age and leaves four children to mourn her loss, Mrs. John Meyers, of Columbus, Ohio; Theodore Wellman, of Columbus, Ohio; Frederick Wellman, an employee of the Fort Wayne Electric company, and Edward Wellman, who is employed at Coombs' wholesale establishment. Deceased was a sister-in-law of Henry Wellman, the undertaker. The time of the funeral has not been decided.

ELOPH.

The infant daughter of Mr. and Mrs. N. J. Eloph, of 90 Force street, died Thursday evening from exhaustion, at the age of one day. The interment occurred at Dunfee.

CHAMBERLAIN DENIES STORY.

HE DECLARES THERE IS NO TRUTH IN IT.

London, July 14.—The Digger News, the Boer organ in London, has received the following dispatch from Johannesburg, dated July 14:

"A cable dispatch from the British government has been received by the Transvaal government conveying a cordial message of welcome approval of the volksraad's franchise proposals. 'The message also suggests minor alterations and tenders friendly advice. 'The Transvaal, in replying, gratefully accepts suggestions, and consideration of the reform bill, now before the raad, has been deferred in accordance with the British cabinet's advice. 'As a result of this development the peace party has come out triumphant and Lord Salisbury is acclaimed as the vindicator of the moderates.'"

MADE HER DO A MAN'S WORK.

LORA A. STEGER WANTS A LEGAL SEPARATION.

Alleges That Her Husband Made Her Earn Her Own Clothing—Worked in the Fields.

In the circuit court this morning, through her attorneys, Hon. W. G. Colerick and E. W. Meeks, Lora A. Steger commenced divorce proceedings against her husband, John Steger. The complaint alleges that they were married April 25, 1894, and lived together as man and wife until July 11, 1899, when she was compelled to leave him on account of cruelty. Since then she and her three children have lived with her father.

Mrs. Steger asserts that her husband cruelly treated her, choked her and often expressed the wish that she would die. He failed to provide her with clothing and she was compelled to sell butter, eggs and poultry and buy her clothes with the proceeds. She was compelled to do the work of a man on the farm, such as planting, hoeing and digging potatoes, sawing and splitting wood, husking corn, feeding cattle, horses and other live stock, carry corn from the fields, etc. She alleges that defendant used profane, vulgar and obscene language in the presence of their three children, Ida, aged four; Charles, aged three, and George, aged one. She prays for a divorce, the custody of the children and alimony in whatever sum the court deems proper. It is alleged that plaintiff believes that defendant will dispose of his property before the suit comes to trial and prays for an order restraining him from selling any of his property.

NO TRUTH IN THE STORY.

London, July 14.—The secretary of state for the colonies, Joseph Chamberlain, when questioned regarding the Johannesburg dispatch to the Digger News today, said to a representative of the Associated Press: "There is not a word of truth in it from beginning to end."

JILTED MAN TRIES MURDER.

Muncie, Ind., July 14.—Edward Salmon, aged twenty-five, yesterday confessed to having attempted to poison his sweetheart, Miss Loma F. Flanks, aged seventeen, Wednesday night. The couple went to the pump for a drink at the girl's home and Salmon placed a spoonful of Paris green in the water. She drank but a sip of it and threw it out. The contents of the cup were investigated, resulting in Salmon's arrest and his confession. Salmon recently returned from army service in Cuba, and had asked to be permitted to enlist for the Philippine war. The girl learned to love another while Salmon was in the army.

MARCHAND ACCLAIMED.

Paris, July 14.—Splendid weather today favored the national fete day in commemoration of the fall of the Bastille. The public and many private buildings were decorated with flags. Enormous crowds wended their way towards Longchamps from early morning to witness the military review. Stringent precautions were taken for the preservation of order. President Loubet, accompanied by General the Marquis de Galliffet, left the Elysee palace at 2:30 p. m. and was greeted all along the route with cries of "Vive Loubet" and "Vive la Republique." At Longchamps the cries were redoubled. A mighty demonstration ensued when Major Marchand, the hero of Fashoda, appeared mounted on a coal black charger, surrounded by the Sudanese soldiers who accompanied him on his expedition.

Dr. E. F. Sites is entertaining Mr. Deaman and Robert Sites, of Lancaster, Ohio, who arrived yesterday, making the trip from that city on their wheels. The distance, 200 miles, was covered in less than two days. The first day out the young men rode 115 miles in eleven hours. Robert Sites is a nephew of Drs. E. F. and H. C. Sites.

A special meeting of the congregation of the St. John's Reformed church will be held on Sunday afternoon and it will be decided whether it will be advisable to place the new organ, which was recently purchased in St. Louis, in the organ loft or in the rear of the pulpit. In order to do the latter it will be necessary to build an alcove to accommodate it.

The Frank Carlucci Stone company, now situated near the Wabash tracks on Fairfield avenue, has been awarded the contract for furnishing dressed stone to be used in the erection of the new immigrant station on Ellis Island, N. Y. The dimensions of the building will be 103 by 334 feet and of a high architectural type. The stone will be of the buff variety from the same quarry that the new court house stone was taken. The lease on the property, which belongs to the Wabash railroad, has been renewed and this contract will furnish employment for a large number of men.

The philosophical Alger reasons that while there may not be more fun in getting fired than in resigning there is at least more glory and a better chance to pay back.

The battle of Concord will be a confusing point in history hereafter. The student won't know whether the affair with British soldiers in 1775 or the more recent Chandler-Gallinger episode is meant.

In Indianapolis there is a rapidly growing movement which has for its object the obtaining of a general Saturday half-holiday for working people in that city. It is a good move. A holiday Saturday afternoon will do much to solve the Sabbath observance problem.

One of the officers of the Oregon regiment just returned from the Philippines says that "a man is needed at the head of affairs, not a woman," meaning in Manila. The observation, while obscure, raises suspicion that he means General Otis. General Otis is not a "woman" in war by any means, but it is evident that he is not big enough to deal with the Philippine situation successfully. General Miles is the man for the job.

The prince of Monaco's refusal to fight a duel with Count Boni de Castellane removes the slight hope which for a moment existed of the passing away of "Anna Gould's pensioner," as he is now called on the Paris boulevards. The prince's refusal is based on the ground that the challenger is beneath him and, as shown by recent investigation of French titles, is not a count at all, having assumed the title without any right to it.

Those gentlemen who have in newspaper interviews expressed themselves in favor of Sunday base ball mistake the issue now presented to the people of Fort Wayne. The question is not whether Sunday base ball is a good thing or bad thing, but is it lawful or unlawful. What these

gentlemen should ask themselves is whether or not they believe even a very general sentiment in favor of Sunday base ball is warrant for deliberate and repeated breaking of the law. The matter of how the Sabbath shall be observed is one upon which men may differ if they will, but in the matter of obeying the law good citizens cannot differ.

The objection that the name United States of America is too long is not valid, but if a man is in such a hurry that he cannot pronounce the name of his country in full there are curtailments and abbreviations, thinks the Kansas City Star. People in the territories speak of the states. The Union is a sufficient description, and, above all, there is America. When a man anywhere in the world stands up and says: "I am an American," it is understood that he is a citizen of the United States of America. The word America means, in the old world, the United States—nothing more or less. The word American is destined to expand with the dominion of the United States. The people who come to look at the stars and stripes as their flag will be admitted to the noble order of Americans. Millions of people from other countries, who were once known by other names, are now called Americans, and millions more are to receive the appellation. The idea of retaining the United States is not entirely new, but nobody has found a name that strikes Americans as being as good as United States; no other seems to mean as much and tell as much. A flag has been designed which conveys the idea of a union of states. A change of name might necessitate a change of flag, and a proposal to do that would be met by the whole congregation of seventy-five millions rising to sing "The Stars and Stripes Forever."

NORTHERN INDIANA NOTES.

There will be a reunion of the Jones family in a grove near Wabash next Sunday.

Daniel Whitehead and wife, well-known residents of Peru, are dangerously prostrated from eating dried beef purchased from their grocer. They were taken violently sick in the night.

The sum of \$4,500 has been subscribed by residents of LaGrange for the Angola-LaGrange-Goshen electric railway line. Right of way through LaGrange county is being secured.

A wealthy and prominent citizen of Deatur was found at midnight in his neighbor's poultry yard with a bag of spring chickens on his back. He begged for mercy and will not be prosecuted.

Mrs. Ivins, who is in her ninetieth year and mother of Postmaster Castetter, at Waterford, has just completed a crazy quilt for her grandson, Earl Castetter, which is now on exhibition in Warsaw.

Thomas Dotchkins, a pioneer widely known over northern Indiana, was struck by a Wabash passenger train at Butler and instantly killed. His home was in Elkhart, but he had been visiting friends in Butler.

Joseph Grass, an Erie railway engineer, with headquarters at Huntington, has been notified by the British government that he has been awarded a medal and 100 acres of land in Manitoba for services as a volunteer in repelling the Fenian raid in Canada in 1886.

Col. C. H. Murray, of the Elkhart council, created a big sensation by openly charging members of the school board with bribery and corruption and intimating that M. U. Demarest was the center of the ring. The trouble grew out of contracts and but few believe that there are any grounds for Colonel Murray's attack.

The state convention of the Indiana Catholic Benevolent league will be held in Laporte August 8th and 9th. The local societies have made elaborate preparations for the entertainment of the large and representative body of laymen which will be assembled there. Edward J. Twomey, of Logansport, state president, will preside.

"Persons who were at the lake front Sunday afternoon between 5 and 5:30 o'clock had the opportunity of witnessing a well-defined mirage of St. Joseph, Mich.," says the Michigan City Dispatch. "The mirage appeared close to the horizon. The hills and piers were plainly observable. The picture appeared for a few seconds and gradually faded away."

The Indiana Volunteer, the soldiers' paper established by Cal Slinger, formerly publisher of the Warren Independent and Bremen Enquirer, has suspended. While the 160th regiment was in Cuba last winter Slinger was urged, on the return of the regiment, to found a publication in the interests of the Indiana troops. He consented, bought an outfit on his return home and got out a creditable sheet, but only a few subscribers came in response to his appeals.

BOUGHT CREDITOR'S CLAIMS.**HURST BANKRUPTCY CASE IS SETTLED.**

E. M. Kahn, of Dallas, Texas, Purchases the Claims—Store Will Soon Be Opened.

A compromise settlement has been reached in the involuntary bankruptcy proceedings against A. K. Hurst, of the Globe clothing house, and the store will soon be opened for business. E. M. Kahn, of Dallas, Texas, a brother-in-law of Mr. Hurst, has purchased the claims of the creditors and has arranged to take the stock of goods in exchange for them. It is likely that Mr. Kahn will place Mr. Hurst in charge of the store. Previous to making the settlement Mr. Hurst complied with the requirements of the law by filing with Deputy Clerk Logan a schedule of his assets and liabilities. About fifty creditors were named, and the total amount due them was given as \$45,147.49. Of this amount, \$94.50 was taxes due, \$7,500 secured claims, and \$37,552.99 of unsecured claims. The value of the stock, fixtures and other fixtures was given at \$17,000.

LEASES CYCLING TRACK.

Albert C. Alter as leased the Robinson park bicycle track for one year, with an option for another year, the deal having been closed Thursday. It is his intention to give several big races this season, but he has not decided whether they will be given under National association or L. A. W. rules. The track at Robinson park is one of the finest in the state and it is Mr. Alter's intention to have some of the most noted trackmen in the country ride there. Arrangements will be made soon whereby the track will be lighted by electricity, so that races may be held there in the evening when most people can attend. Mr. Alter will give an amateur race there each week and he will also arrange for several big races by local talent.

KICKED BY A HORSE.

Charles J. Trevis, of 100 Burgess street, was kicked in the chest by a horse at the Standard Oil company's warehouse on Wednesday evening. Dr. Ruhl was summoned and found that the sternum was broken and that the man had suffered internal injuries.

Architect Kendrick is preparing plans for the remodeling of the house at 126 Harrison street, owned by Dr. K. K. Wheelock and which is at present occupied by him as an office. A large addition will be built in the rear consisting of bedrooms and kitchen and a large veranda will be built on the front. Dr. Wheelock will occupy the house with his family as soon as it is completed.

Mrs. George E. Hess, of Delray, Mich., is in the city, visiting her parents, Mr. and Mrs. Paul Simon, of East Jefferson street.

ANECDOTES OF BONNER.

Interesting Reminiscences of the Noted Publisher.

WAS BOUND TO HAVE HIS WAY.

How the Founder of the New York Ledger Once Insisted on Being Obeyed—Story of How He Made His Record as a Typewriter—His Love for Horses.

Among the many stories related about the late Robert Bonner, founder of the New York Ledger and noted lover of horses, the following are interesting:

A pressman who was employed in getting out the Ledger some years ago related the following story about Bonner: "It was in the days of double cylinder presses," said a tall, white headed pressman, "that I had charge of the press room where the Ledger was printed. Little else was printed there, though the place was not owned by Mr. Bonner, the work being done by contract. But, as the circulation was nearly 100,000 copies weekly, it kept the four presses busy almost all the time turning out the edition.

"Of course Mr. Bonner's word was law, and, though theoretically he should have given his orders and directions to the proprietor, who, in turn, should have communicated them to me, I used often to get instructions straight from the publisher. One morning he came in and looked around as usual, carefully inspecting the work of every press. At press No. 4 he stopped and took off a sheet, which he examined critically. 'John,' he said after a little, 'it seems to me that the big cut on this page is printing too light. I think you should stop the machine and underlay the block a little more.'

"Now, ordinarily, I would not have hesitated for a moment, but it chanced that we were a little behind that week. It was a question whether we should get through at all in time or not, and I didn't like to stop. So I said: 'I hardly think the cut too light, Mr. Bonner. Still, if we must stop and put on more pressure of course we will. But I shall have to get my orders from my employer, not from you. I am responsible to no one but him.' Bonner looked at me in a certain half quizzical way that meant he was mad.

"'You won't stop on my say so, eh? Well, we'll see whether you will or not. Now, I tell you to stop that press, take the block out and put it in again bottom side up. I want a good, heavy, black impression, and I don't care whether there is a picture there or not. If you don't choose to take orders from me, well and good. I rather hope you don't, for then we'll see whether your employer is as foolish as you or not.' 'Do you mean it?' I asked. 'Yes, I mean it,' was the reply, 'and when you get the block bottom side up I want you to let the press run with it that way till I tell you to stop.'

"Well, I had the block changed and the press running again in a jiffy, and Bonner walked out with his head up and a satisfied look upon his face. I expected to get instructions to change the block back in a few minutes, but when it came time to knock off for midday dinner no word had come. At 1 o'clock, when we started up again, the order had not yet arrived. Hour after hour of the afternoon passed, and the pile of spoiled sheets was very large. But that was not the worst of it. It was then much more of a question than it had been in the morning whether we could get the edition off at all in time or not.

"Finally at 4 o'clock I went to Bonner's office and was shown into his own room. When he looked up at me, an expression of consternation flitted across his face. 'Haven't you changed that block yet?' he cried. 'No, sir,' said I. 'You said you'd tell me when you had had enough paper spoiled. We shall have to run day and night now or miss the edition.' 'Well, you are an ass,' said Bonner. 'But you obeyed orders for once in your life, didn't you? I suppose you know I'm good for the money for the extra time, and you also know what will happen if the paper is late.' Well, the paper wasn't late, but Mr. Bonner had to pay a pretty penny for his fun of giving orders in the pressroom.

Mr. Bonner was fond of relating an anecdote to prove his skill in typesetting. 'I never made,' he said, 'but one bet in my life. I came to New York a compositor in 1815 and never met but one man who could set type as fast as I could. His name was John Hand, and he was, until his death, one of the proprietors of the Galveston Daily News. I was challenged into betting \$10 that I could beat him in setting up the president's message. In 20 hours and 25 minutes I set up 25,500 ems and won the money, which I declined to accept, as I do not believe in betting.'

Fond as Mr. Bonner was of horses and vast as was the sum he invested in them, he never bet a cent on a race nor allowed one of his horses to be matched for money. He did most to develop the trotting horse in America, but he plainly defined his position when, seven years ago, he was challenged to race Suol against Nancy Hanks. He wrote an open letter, in which he said, 'Under no circumstances will I ever allow one of my horses to trot in a race against another horse for any purpose whatever.'

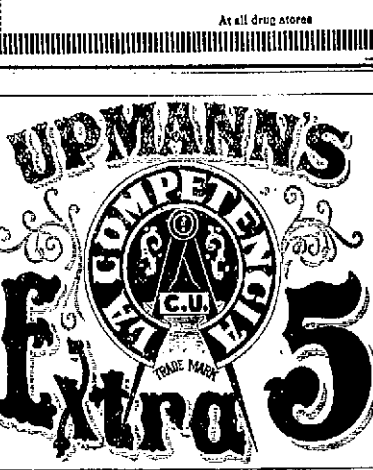

Mr. Bonner perfected a system of horseshoeing which is in general use today and about which he was willing to talk for hours with congenial spirits on his stock farm at Tarrytown. 'Balancing the hoof' is the keynote of the Bonner system of horseshoeing. His farm in Westchester county and his stables in New York are horse heavens.

Great Britain's Doctors.

The Lancet, in a statement of the number of doctors in Great Britain holding British degrees, gives the total number of practitioners at 84,994.

WOMANLY

A sweet woman, the picture of health, speaking with enthusiasm, said, "I don't see why you do not send out women to talk to women about the merits of Pabst Malt Extract, The 'Best' Tonic. There are so many women that are run down, with nerves shattered, with a lack of vitality, feeling a sort of restless indecision which is an outgrowth of over-exertion. If you could only get a woman who knows as well as I do how 'Best' Tonic will build one up, and who has enough earnestness to tell them about it, you would certainly have largely increased sales. There is Mrs. —, who was as thin as she could be, and her poor little baby, puny and undeveloped. I told her about 'Best' Tonic. In three weeks you ought to see the difference. The improvement is something great; mother and baby both feel it and show it."

THE MARKET IS STILL WEAK.**GENERAL TONE OF NEWS WAS BEARISH.**

Heavy Receipts and Argentine Shipments Caused Decline—New York Markets.

CHICAGO GRAIN MARKET.

Chicago, July 14.—Continued heavy receipts and large Argentine shipments caused a steady decline in wheat today. September opened steady at 73½¢ and declined regularly to 72½¢. Generally favorable weather was reported. Cables were a fraction lower and Northwest receipts were 483 cars, compared with 424 last week and 54 a year ago. Chicago received 138 cars, 2 of contract grade.

Trade was narrow from the start and the general tone of the early news was bearish. The local crowd sold freely and forced out considerable September on stop loss orders at 73c. After selling sparingly at 72½¢, the market rallied to 73c on buying against puts.

Corn started firm. September opened ½¢ higher at 34½¢ and 34½¢. Free selling against country acceptances caused a decline to 34c. Local receipts were 628 cars.

Outs ruled steady. September opened unchanged at 20½¢ and sold at 20½¢. Crop prospects were favorable. Local receipts, 272 cars.

Provisions ruled quiet. September pork opened unchanged at 2½¢ higher or at \$9.20 and sold off to \$9.17½.

September ribs opened unchanged at \$5.45 and sold at \$5.47½.

September lard opened 2½¢ higher at \$5.22½ and declined to \$5.20.

CHICAGO CLOSING PRICES.

Chicago, July 14.—Wheat—July, 71½¢; Sept., 73½¢; Dec., 74½¢. Corn—July, 34½¢; Sept., 34½¢; Dec., 35¢; May, 34½¢. Oats—July, 24½¢; Sept., 24c; Dec., 20½¢; May, 22½¢. Pork—July, \$9.10; Sept., \$9.22½; Oct., \$9.25. Lard—July, \$5.45; Sept., \$5.52½; Oct., \$5.57½. Ribs—July, \$5.15; Sept., \$5.20; Oct., \$5.25. Flax—Cash N. W., \$1.02½; Cash S. W., 97½¢; July, 98c; Sept., 96½¢; Oct., 95½¢.

CHICAGO LIVE STOCK.

Chicago, July 14.—Estimated receipts of hogs today, 22,000; tomorrow, 17,000; left over, 1,493. Market steady. Mixed and butchers, \$4.20 to \$4.40; good heavy, \$4.35 to \$4.45; rough heavy, \$4.20 to \$4.30; light, \$4.25 to \$4.40.

Cattle—Receipts, 2,000; market slow, steady. Beefsteers, \$4.50 to \$5.70; cows and heifers, \$2.60 to \$4.90; Texas steers, \$4.00 to \$5.10; stockers and feeders, \$2.50 to \$4.85.

THE DAY ON WALL STREET.

New York, July 14.—Price changes of stocks were mixed at the opening and were restricted to fractions. There were good gains in Northern Pacific, the Southwesterns and Pennsylvania ranging from one-half to about a point. A number of other railroads showed small losses.

Brooklyn Transit fell ¾¢. Metropolitan showed a small gain. The Industrials generally were up a fraction.

Large buying of the Southwesterns and Northern Pacific was a sustaining force in the early market. Manhattan rose a point. Sugar recovered

as much and Tin Plate moved upwards.

The general list, however, was disposed to sag.

New York Air Brake and Biscuit preferred gained 2½¢ each.

The tightness of the London market aroused fears that gold would be exported and checked operations in stocks. The market was semi-stagnant and prices dropped from inanimation. New York Air Brake extended its gain to 7 points.

Sales to noon, 186,942 shares.

The market continued exceedingly dull and sluggish with the tendency downwards, except for a gain of 1½¢ in Chicago Terminal Transfer preferred and a less amount in the common.

Rubber rallied 1½¢. Specialties continued under pressure near the low point and the Grangers sold off on talk of crop damage in the northwest.

Burlington led the decline in the group with a loss from the top price of 1½¢. Missouri Pacific fell 1½¢ from the top price. The closing was dull and easy at the low point and showed net losses of a point and upwards for many leading stocks.

NEW YORK PRODUCE.

New York, July 14.—Butter—Receipts, 4,850 pkgs; market steady; western creamery, 15¢ to 18½¢; factory, 12¢ to 14½¢.

LIGHTENS LABOR

Cowboys about a house are usually the sign that the housewife has more than she can do, **thawing she goes about it**; that all her time and strength are utilized in doing heavy work; that she uses soap in her cleaning. If she would only use

GOLD DUST
Washing Powder

heavy work would be so lightened that the little things needn't be neglected. Gold Dust gives a woman time to rest, time to visit, time to read, and time to sew. It is much better and cheaper than soap for all cleaning. For greatest economy buy our large package.

HOMES FOR VETERANS.

Many Favor Vandervoort Project to Settle in Cuba.

THEIR MISSION IS ONE OF PEACE.

Leader of the Movement Expects to Have 40,000 Veterans Located in Western Cuba in Two Years—All the Land Needed Secured For a Nominal Sum.

The plans of Paul Vandervoort of Omaha to lead an army of blue and gray veterans into Cuba as soon as cold weather sets in are matured and he has begun to tabulate the rolls of those who will go. Thus far every state in the Union is represented, and it looks as if the movement will be an extraordinary success, says the Chicago Inter Ocean.

Mr. Vandervoort wrote a letter to President McKinley some weeks ago, asking that a part of the money appropriated for the payment of the Cuban army, if not all used for that purpose, be set aside for the payment of the transportation of such veterans of the

PAUL VANDERVOORT, civil war of both armies who desired to go to Cuba and settle for life. Mr. Vandervoort pointed out that these old fighters would become the salt of the earth and would be equally willing to till the soil or answer a call to arms to force the Cubans to keep the peace.

Without giving the movement his official sanction, President McKinley acknowledged the receipt of the letter and said he would discuss the subject later.

In the meantime Mr. Vandervoort is receiving thousands of letters from veterans in all parts of the country who desire to join the movement. Paul Vandervoort is a pusher and has negotiated with a Cuban syndicate, which will provide each veteran with all the land he can handle at a nominal sum. The veterans have confidence in the man who is at the head of the scheme, for he was once the commander in chief of the Grand Army of the Republic and bears the distinction of having carried a rifle in the Union army when but a mere boy, said to have been but 13 years of age.

At his office in Omaha Mr. Vandervoort is keeping a force of clerks busy answering letters and sending to the veterans the information they want. Speaking of the proposed invasion of

Cuba a few days ago, Mr. Vandervoort said: "It is surprising how many veterans of the late war want to go to Cuba. Why, General Joe Shelby's band of rough riders, who went into Mexico to the relief of Maximilian will not be a detriment to the men who will invade Cuba. We go on a mission of peace preferably, but if the authority of the United States government is questioned in our locality we will be ready to fight. If we can get the official sanction of the government for the movement, we would prefer it, but if we cannot we will go as a colony."

"I expect to have 40,000 veterans located in western Cuba before two more years have passed. I believe my books will show 10,000 already pledged to the movement. My idea is merely to find homes for the veterans where agriculture is easy and the returns for the labor large. This is the case in Cuba, and I have arranged for all the land we want at a very nominal sum. My latest applicant for membership is the son of General Mosby, the famous Confederate cavalry chieftain. I have many ex-Confederates enrolled as Cuban soldiers."

Dewey's Butterflies.

A friend of Admiral Dewey tells me that the hero of Manila is delaying his return in order to increase his collection of butterflies. It is well known that the admiral is one of the most skilled lepidopterists in the world. In the warm countries he has visited since leaving the Philippines he has had an opportunity to capture many splendid specimens. Over 60,000 species exist.—Cor. New York Press.

Deep Frost in Minneapolis.

Telephone linemen in digging a hole for a tall pole made an unusual discovery in a Minneapolis street recently. After digging seven feet the linemen encountered frozen earth, the frost belt being over a foot thick, says the St. Paul Dispatch. The belt was protected by several feet of dense peat, which served as a blanket to keep out the hot air from above.

Revision.

There is considerable contrast between the attention attracted by the homecoming of Trovyns and that which was recorded his departure.—Hinsburg Times.

Postage Stamp Jubilee.

It is proposed to celebrate the jubilee of the postage stamp in France by the release for six months of the old stamp of 1849, bearing the effigy of Liberty.

A Perennial Mystery.

Average Man—These Sunday papers just make me sick. Nothing in them but commonplace personal items about a lot of nobodies no one ever heard of.

Friend—I saw a little mention of you in the Sunday Gleaner.

Average Man (half an hour later, to messenger boy)—Here, rush around to The Gleaner office, and get me 40 copies of the Sunday edition.—New York Weekly.

Almost Impolite.

"What do you consider the greatest object of interest in America?" asked Miss Cayenne.

"Well," answered the lecturer, "I arrived here day before yesterday, and"

"Of course," she exclaimed apologetically. "I meant the greatest object of interest next to yourself."—Washington Star.

THE PEOPLE'S STORE.

At a time when we are enjoying a very good business, we find invoicing time close upon us, and in order to greatly reduce our stock of Dry Goods, etc., it becomes necessary for us to announce that OUR

GREAT SEMI-ANNUAL CLEARANCE SALE

IS NOW GOING ON, and Will Continue Till AUGUST 1st.

Regardless of the fact that Dry Goods of every kind have greatly advanced in price of late, we shall, DURING THIS SALE, SELL GOODS JUST AS CHEAP as WE HAVE EVER DONE BEFORE, for the reason that we purchased the bulk of our stock previous to the rise in prices. We doubt if the chance will ever occur again for the purchasing public of this community to buy DRY GOODS so LOW IN PRICE. Space will not permit us to advertise all the GREAT BARGAINS we have in store for you, but the list below will give you some idea of the GREAT CUTS we have made in every department.

Read the List and Prices Carefully.

PATTERSON'S SALE

Which began this morning—like this "ad" is at the top of everything in sight, and is seen first by the wise and prudent man who is desirous of buying a high-grade suit "at a price" that would make a man, who is not acquainted with our store, wonder what could be wrong with the suit.

Men's and boys' crash suits, linen and straw hats from 25c to \$2.00, 200--50c white shirts; flannel and alpaca coats and vests. 200 child's suits, ages 3 to 8, and boys' knee pants, all go at just one-half price during this sale.

Don't wait for your neighbor to show you the bargains that he bought—show your neighbor the bargains you bought. "He Who Hesitates Is Lost."

REUBEN S. PATTERSON, The man who never hesitates to stir up the bargain seekers.

SOLDIERS COMING

PENNSYLVANIA COMPANY WILL MOVE THE NINETEENTH.

WILL REQUIRE SIX TRAINS.

CARS NOW EN ROUTE TO CAMP MEADE.

PRESIDENT OF PLANT SYSTEM.

BRIEF SKETCH OF COLONEL O'BRIEN'S CAREER.

The Nineteenth United States infantry, which has been expected this way for over three weeks, will probably reach Fort Wayne some time Monday afternoon or night. The Pittsburgh, Fort Wayne and Chicago road has been employed to carry the men and the camp equipment to Chicago and is now sending cars east for that purpose. Last evening there passed through here thirty-five tourist cars and two baggage cars, all the equipment in that line now disengaged on this end of the road. The other cars will be furnished by the eastern division. There are nearly 1,300 men in the Nineteenth regiment and to move them and their baggage and camp outfit will require six trains. Last night, while endeavoring to stop at Davis for water, the train of empty tourist cars had a mishap which resulted in a delay of an hour or more. The airbrakes became damaged and two of the cars had their platforms crushed.

FREIGHT AGENTS MEET.

The local freight agents of the city held their semi-monthly meeting at the pavilion in Robison park yesterday afternoon. Nothing of much importance to the public occurred, the business being of the routine order. In the party were C. H. Newton, H. C. Moderswell, F. E. Sawyer, E. S. Philley and H. M. Quicksell.

A MOONLIGHT EXCURSION.

Master Mechanic G. S. McKee and General Foreman D. J. Timlin, of the Wabash, who are members of the St. Louis Railway club, have been notified that the next meeting of the club, which takes place next Tuesday, will end in a moonlight excursion down the river. Messrs. McKee and Timlin may decide to attend the meeting.

VANDERBILT WANTS IT.

Unless the litigation against the Clover Leaf is carried to the United States supreme court it is thought the property will be out of the hands of the receivers in six months. It is said that both the Lake Shore and the Erie would like to secure the Clover Leaf at the foreclosure sale. The Lake Shore (or Vanderbilt) interest was negotiating for the control of the property some years ago, but abandoned the project, which has now been taken up again.

BIG EXPRESS ENGINES.

The dimensions of the new Pittsburgh and Western fast express engines are as follows: Weight in working order, 133,000 pounds; on drivers, 80,000 pounds; total weight, engine and tender, 225,750 pounds. The driving wheels are 70 inches outside of tires; cylinders, 20x26; extended wagon-top boiler, 62 inches in diameter at the smallest ring, 334 2-inch tubes; fire box, 108 inches long by 39 1/2 wide; working pressure, 180 pounds; water test, 275 pounds.

WANATAH COAL DOCKS OPEN.

This morning Supt. J. B. McKim, Master Mechanic B. Fitzpatrick and Civil Engineer E. G. Ericson went to Wanatah to make final tests of the new coal docks and to put them in operation. These are the finest and most convenient coal docks along the

line of the Pittsburgh, Fort Wayne and Chicago road. They are away from crossings and are otherwise so arranged that trains going east or west can stop for coal, and when supplied move again without having to cut the engine loose from the train.

WIRES DOWN.

During the storm at 3 o'clock yesterday afternoon all the Nickel Plate wires were broken or crossed at South Whitley and for two or three hours communication with points west of that place was cut off. No damage, as far as reported, occurred elsewhere.

A REMARKABLE CAREER.

Col. M. J. O'Brien, who has been elected to succeed the late Henry M. Plant, has been in the employ of the great Southern Express company for many years. He began as a driver of one of the wagons of the Adams Express company, and worked his way up in that service until the Southern company hired him. Then his real career in business began. Thirty years ago Mr. O'Brien became the secretary of the president of the Southern Express company, and now he is himself the president of that great concern. When Mr. Plant died Mr. O'Brien was taking a rest in Europe, but he at once returned to Georgia, and his election as president followed immediately. Colonel O'Brien served in the Confederate navy during the war, and was attached to the fleet of Commodore Poindexter until it was destroyed to prevent its falling into the hands of the enemy. When the colonel was the superintendent of the Southern company, it is said that he traveled no less than an average of 30,000 miles a year.

THE EXCURSION ASSURED.

The Sentinel a few days ago mentioned a movement looking towards an excursion to Sandusky by the electric light boys. Preliminary arrangements were completed yesterday for an excursion to that point on August 20th, the last Saturday in the month. The "boys" expect to take about 400 people with them, as a cheap rate has been secured.

NOT AFTER THE NICKEL PLATE.

President Truesdale, of the Lackawanna, says there is no foundation for the report that his road is anxious to absorb the Nickel Plate and secure a through line to Chicago. Apparently the owners of the roads are satisfied with the traffic alliances they have at present. The Vanderbilts own the Nickel Plate, and are largely interested in the Lackawanna, but there are many reasons why a consolidation of the two roads would not be to the interest of either.

ASSIGNMENT COMPLETED.

The changes in the clerical force of the Pennsylvania company at this point, reference to which was made in The Sentinel a few days ago, is now complete. The following gentlemen were benefitted by the change, each being a promotion in the order named: Frank J. Greer and Clarence Haynes, timekeepers, with desks in the superintendent's side of the building; John Wolfrum, clerk and stenographer in the trainmaster's office; Ed. Hoberack, L. G. Dailey, H. H. Logemann, Henry Heine, Fred Passino and Ernest Stubbartz. The latter is messenger in Master Mechanic B. Fitzpatrick's office and is the only new employee in the entire list.

LENNART RESIGNS.

John P. Lennart, who has been with the Kerr Murray Manufacturing company for the past ten years, tendered his resignation this morning, the same to take effect immediately. Mr. Lennart will engage in business for himself, but does not care to state at this time just what it will be.

INDUSTRIAL NOTES.

Walter Fox, of the electric works, is off duty on account of sickness. Foreman C. F. Knothe, of the ma-

chine room at the electric works, is detained at home by sickness.

Master Mechanic George James, of the Nickel Plate, was here yesterday afternoon.

Brakemen Gallivan and J. A. Deahl, of the Nickel Plate, are taking a lay off.

N. C. McKinney, chief lineman of the western division of the Pittsburgh, is taking his summer's vacation.

A. Becker, Nickel Plate engineer, is taking a lay off of a few days to look after some business matters.

D. N. Markle, Nickel Plate fireman, who was visiting at Fort Huron, Mich., three weeks, reported for duty on the road yesterday.

Conductor B. Cowdry, who had been away on a vacation, resumed his place on the Nickel Plate yesterday.

F. J. Summers, a fine cutter at the Pittsburgh shops, will spend a two weeks' vacation at Rome City, fishing.

Master Mechanic P. F. Smith, jr., of the Toledo division of the Pennsylvania lines, was in the city yesterday.

John Reidel, of the Pittsburgh planing mills, is working again, after an absence of several days on account of sickness.

Machinist J. A. Nolan, who had a hand injured two weeks ago, resumed work in the Pittsburgh shops this morning.

Nickel Plate Engineer George Cooper has returned from Ohio, where he spent a month with friends and relatives.

George Biveline, sweeper in the Pittsburgh carpenter shop, has recovered from his recent illness and is at work again.

Work is about to begin on the tunnel to be constructed under Lookout Mountain, at Chattanooga. The work will cost about \$2,000,000.

Donald McDonald went to Sharon, Pa., today to inspect steel wedges for the Pennsylvania company. The work will occupy about one week.

The business of the western lines on account of the National Educational association's convention at Los Angeles, was not up to expectations.

Frank Royce, machinist at the Wabash shops, has returned from Kansas City, after a three weeks' sojourn there, and this morning took his place in the shops.

The track foremen of the middle division of the Pennsylvania are required to take a course of instruction in the art of track laying and maintenance by riding over the road with the supervisors at different times.

Engine 163, an extra passenger locomotive on the Nickel Plate, was turned out of the Stony Island shops yesterday. Engine 164 was also turned out of the same shops today. It will go into service on the eastern division.

The new Wooten-Belpaire engine of the Pennsylvania is to be given a trial on the Atlantic City road this week, and is expected to develop an average speed between Atlantic City and Philadelphia of seventy-five miles an hour.

The Northwestern has 246 miles of new road under construction. The new lines are being laid with heavy steel rails and the roadbeds are gravel ballasted. They tap fertile fields and will add considerably to the traffic of the main line.

The engineers on the Chicago and Alton are complaining of the severe tests to which they are being subjected in the examinations touching the manipulation of air brakes. It is claimed that the examinations are technical rather than practical.

John E. Lennart, foreman of the carpenter work at the east car shops, has purchased a lot on East Creighton avenue, upon which he will build a house for his own occupancy the coming fall. The deal was made through the Lennart & Zorbaugh agency.

Cornelius Vanderbilt, jr., was at the throttle of an engine that hauled a party of New York Central officials upon an inspection tour yesterday. Young Vanderbilt takes considerable pride in his knowledge of the engine, and his ability to handle the throttle.

Superintendent J. C. Moorhead, of the Erie lines, states that the greatest difficulty in arranging for the Erie trains entering Springfield, Ohio, is the fact that they have to

back into town, which he considers quite dangerous. This is taken to mean that the Erie will not enter the city.

Mr. and Mrs. Thomas P. Roberts, of Pittsburgh, passed through the city this morning, en route to Mackinac Island. They came in on No. 15 at 3 o'clock and left on No. 7 at 8:45, spending the interim at the New Avenue. Mr. Roberts is chief engineer of the Pennsylvania railroad.

Fireman R. J. O'Neil, of the Wabash yards, reported for duty this morning. He had been spending a ten days' vacation in the country.

Fireman C. W. Aulls, who had been working on the switch engine during the absence of Mr. O'Neil, returned to Peru this morning to resume his place in the through freight service.

Tomorrow will be the twenty-second anniversary of the reformation of Thomas Mills, the well-known machinist, who never fails to celebrate the day as one of the most important epochs of his life. Francis Murphy, the great temperance lecturer, was holding meetings in this city, and among one of the first to join in the movement was Mr. Mills, who has faithfully fulfilled the promises he then made to abstain from the use of all intoxicating drinks.

Martin G. Fallon, of Providence, R. I., arrived in the city this morning and next Monday will take a position at his trade in the locomotive department of the Pittsburgh shops, under Foreman Hugh Hogan. Mr. Fallon served an apprenticeship in the Rhode Island locomotive works. During the war he was aboard the repair ship Vulcan, which served as a machine shop in Sampson's fleet, and was at Santiago de Cuba when the naval battle occurred. Mr. Fallon is a nephew of P. J. Fallon, of the pension office, who came up from Indianapolis to meet him and introduce him about the city.

The social which was to have been given in Bloomingdale last evening by the members of the Royal Neighbors, was postponed on account of the rain and will be held in Harmony hall this evening instead.

Rev. Theodore Hermann, of Lafayette, who has been the guest of Rev. and Mrs. Bosch, of West Washington street, for a few days, left yesterday morning for Cleveland, where he will be married on Wednesday to a young lady of that city. In company with his bride he will stop over in the city for a few days on his return trip.

The Iroquois club at its meeting last night elected the following officers: President, A. Feulner; vice-president, William Stier; financial secretary, E. Rosenberger; recording secretary, Michael Avers; guide, E. McKinzie; treasurer, Wm. Roemke; trustees, Heine, Braun and Haight. The club is a social organization, which includes some of the leading young people of the south end. The birthday anniversary which was held in the St. John's Reformed church yesterday afternoon and evening was a decided success, socially and financially. A sum of money amounting to about \$75 was deposited in the box and it will be added to the organ fund. During the day an excellent program, consisting of musical numbers, readings and recitations, was rendered, besides several impromptu numbers which added greatly to the enjoyment of the occasion. Rev. Bosch made an excellent speech, as did also Rev. B. Raf, of the Reformed orphan's home. The musical program was under the direction of Mrs. Bosch. A most enjoyable day was spent by those who attended, of whom were a large number in spite of the inclement weather.
